EXCELCIDE DAIRY SPRO

INSTRUCTIONS

Space Spraying: After closing off all air currents, direct spray upward at walls, and ceilings so that as many insects as possible can be contacted with direct vapor or mist. Application can be made with electric sprayers, fogging generators, or compressed-air sprayers. To kill accessible crawling insects such as Roaches, Silverfish, Crickets, and Waterbugs, dispense 1 quart EXCELCIDE Dairy Sprayer per 10,000 cubic feet of space. Dispense 1 pint per 10,000 cubic feet of space to kill flying insects such as Flies, Gnats, and Mosquitoes. Doors and windows should be closed for at least 15 minutes after spraying; then sweep up and destroy all dead and dying insects. Repeat when necessary.

DIRECT CONTACT SPRAYING

To kill Roaches, Silverfish, Crickets, and Waterbugs, direct a wet spray toward infested areas, floors and crevices to hit the insects. Apply EXCELCIDE Dairy Sprayer with an efficient hand or power sprayer that will deliver medium-size droplets. ANTS: Spray Ants, Ant Trails, areas around door sills and window frames where the pests enter the premises. Repeat as often as necessary. SPIDERS, MILLIPEDES AND HOUSE CENTIPEDES: Spray thoroughly and repeat spraying of infested areas, working a wet spray into cracks and other hiding places, directing EXCELCIDE Dairy Sprayer to hit the pests wherever possible. Repeat applications if necessary.

ACTIVE INGREDIENTS	100%	
Petroleum Distillate		99.72%
Pyrethrins		.18%
Technical Piperonyl Butoxide*		.10%

CAUTION: KEEP OUT OF REACH OF CHILDREN

(See additional cautions below)

*Consists of .08% (butylcarbityl) (6-propyl-piperonyl) ether and .02% related compounds.

An insecticide for controlling flies, gnats, midges, mosquitoes, ants, silverfish, crickets, roaches, and spiders in Dairies, Creameries, Ice Cream Plants, Cheese Factories and Milking Parlors. Leaves no greasy residue when used as directed.

CAUTION: Use EXCELCIDE Dairy Sprayer as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using. Also remove pets, birds, and fish bowls before spraying. Do not apply directly to food products. Avoid pouring, spraying or storing near fire or flame. Harmful if swallowed. Keep away from children.

NOTICE: The manufacturer and seller warrant that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller and buyer assumes the risk of any such use.
