

2270-245

**DIRECTIONS**

EXCELCID<sup>®</sup> Emulsion-PB Emulsifiable Concentrate is to be used at the rate of one part concentrate to 10 parts water. For best results, mix only the amount of material that will be used immediately. Agitate well before using.

**ROACHES:** For control of roaches make thorough treatment of infested cracks and other hiding or resting places. Application of the insecticide to a limited extent may be made on some exposed surfaces where roaches will crawl over it when they come out of hiding. Application should be repeated as often as necessary to maintain effective control.

**SPIDERS:** Directions for use are the same as the directions for roaches, except that emphasis is placed on treatment of baseboards, stairs and other areas where spiders are likely to be found.

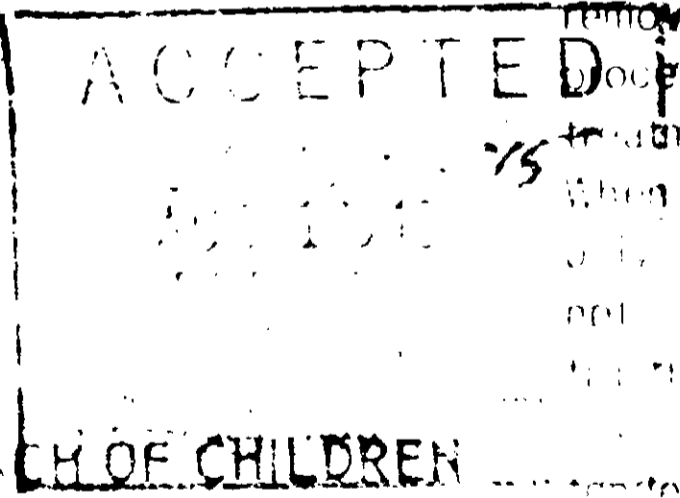

**CRACKS:** For control of roaches and spiders, cracks and other hiding or resting places should be treated with EXCELCID<sup>®</sup> Emulsion-PB. Application should be repeated as often as necessary to maintain effective control.

<b>ACTIVE INGREDIENTS</b>	<b>95.00%</b>
Petroleum Distillate	82.02
Technical Piperonyl Butoxide*	11.80
Pyrethrins	1.18

<b>INERT INGREDIENT</b>	<b>5.00%</b>
*Equivalent to 9.44 parts per cent of piperonyl-butoxide and 2.36 parts per cent of related compounds.	

EPA Reg. No. 101-101-0101

**CAUTION: KEEP OUT OF REACH OF CHILDREN**

See side panel for additional cautions.

884-886 HODIAMONT AVE • ST. LOUIS, MISSOURI 63112

**FLOOR BEETLES:** Directions for the control of floor beetles are the same as for roaches, except that application to areas of the floor, such as cracks, should be made. The liquid concentrate should be applied to areas where beetles are likely to be found. Treatment of areas of floors, baseboards, and stairs of this type are also indicated. Repeated applications may be required.

**SPIDERS:** Directions for control of spiders are the same as for roach control except that spiders are harder to kill, and it is desirable that they actually be contacted with the insecticide.

**CAUTION:** Harmful if swallowed. Agitate contents thoroughly before using. Food should be removed or covered during treatment. All food processing surfaces should be covered during treatment of the area. Do not use in areas where food is prepared or stored. Do not use in areas where children play. Do not use in areas where children play. Do not use in areas where children play.
