

## DIRECTIONS

EXCELCIDE 2% Malathion Residual Water Based should be applied to all insect frequented surfaces inside the plant at regular 2 - 4 week intervals.

This formula is designed to control exposed stages of grain weevils and saw-toothed grain beetles, crawling insects: cockroaches and silverfish; and flying insects: flies, gnats, & mosquitoes which will alight and rest on the treated surface.

For treatment inside boxcars, the material should be used either with a tank-type sprayer or with a power sprayer so as to coat the entire wall surface of the boxcar in an effort to control insects that might emerge from behind the walls and contaminate the goods during shipment.

For treatment in food processing plants application should be made to walls, floors, baseboards, wall-floor junctures, window sills, doorway areas, and storage areas. Application should be made on a spot treatment basis to the above areas.

Approximately 1 gallon should be applied per 1,000 square feet of typical wall surfaces.

2% MALATHION  
RESIDUAL  
WATER BASED

A Ready-To-Use Water Based Malathion Residual Spray Formula  
for Application in Boxcars and in Food Processing Plants.

**CAUTION: KEEP OUT OF REACH OF CHILDREN**  
(See side panel for additional precautions)

### ACTIVE INGREDIENTS

Malathion (0,0-Dimethyl dithiophosphate of diethyl mercaptosuccinate)	2.00%
Heavy Aromatic Naphtha	.56%

### INERT INGREDIENTS

97.44%

EPA Registration No. 2270-392

## DIRECTIONS

EXCELCIDE 2% Malathion Residual Water Based is completely ready-to-use and requires no dilution or mixing.

It is to be applied in a garden variety or tank-type residual sprayer to surfaces over which crawling insects frequent or on which flying insects alight to provide a lethal deposit which will kill insects contacting the treated surface.

The sprayer should be provided with a fan pattern nozzle so that the treated surface is left glistening wet and yet does not "run".

This formula is designed to protect sensitive food container linings from picking up objectionable odors from the insecticide.

### CAUTION

Harmful if swallowed. Do not use in commercial food preparation areas or in edible products areas of food processing plants. Avoid breathing of spray mist. Avoid contact with skin. Wash thoroughly after using. Avoid contamination of feed and food-stuffs. Do not reuse container. Destroy when empty. Not intended for household use.

This product is toxic to fish. Do not contaminate water by cleaning of equipment, or disposal of wastes.

### NOTICE

The Huge Company, Inc. warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk in any such use.
