DILUTION

Dilute this product with fuel oil or kerosene at the rate of one part concentrate to 8 parts oil to obtain the ready to use product.

DIRECTIONS

EXCELCIDE PYRETHRIN - P.B. (Oil Soluble) is designed for control of small flying insects: Flies, Gnats, Mosquitoes, *Drosophila* Gnats (Vinegar and Fruit Flies), Blow Flies, and aids in the control of exposed stages of flying moths: Angoumois Grain Moths, Mediterranean Flour Moths, and Indian Meal Moths.

When fogging or space spraying with this product, apply at the rate of 1 qt. per 1000 cu. ft. of space. Spray EXCELCIDE PYRETHRIN - P.B. (Oil Soluble) into entire room after closing off all air current. Spray should be directed upward at wall and ceilings so that as many insects as possible can be contacted with a direct vapor or mist. EXCELCIDE PYRETHRIN - P.B. (Oil Soluble) can be applied by means of an electric, portable fogging device, such as the Dyna Fog, Chalfont, DEH-15, or BVI foggers.

Room should be kept closed at least ten minutes after spraying. Repeat as often as necessary to keep named insects under control. Periodic spraying of EXCELCIDE PYRETHRIN - P.B. (Oil Soluble) assists in the control of new infestations of named insects. Clean up all dead and dying insects and nest/moths at the close of the ten (10) minute period.

EPA Reg. No. 2270-549

Pyrethrin - P.B.
(OIL SOLUBLE)

FOR USE IN FOOD PROCESSING PLANTS AND WAREHOUSES

A Synergized Pyrethrin Concentrate to be Diluted
1 part Concentrate to 8 parts Oil

ACTIVE INGREDIENTS	100%
Petroleum Distillate	87.02%
Technical Piperonyl Butoxide*	11.80%
Pyrethrins	1.18%

*Equivalent to 9.44% (butylcarbitol-6-propylpiperonyl) ether and 2.36% related compounds.

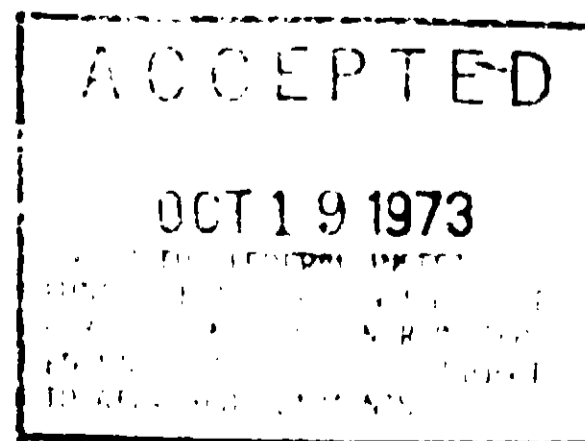

CAUTION: KEEP OUT OF REACH OF CHILDREN
(See additional cautions on right panel)

DIRECTIONS

EXCELCIDE PYRETHRIN - P.B. (Oil Soluble) is designed for control of crawling insects: American, German, and Oriental Cockroaches, Ants, and Silverfish; and aids in the control of exposed stages of stored product pests: Confused Flour Beetles, Red Flour Beetles, Rice Beetles, Caddises, Saw-Toothed Grain Beetles, Drug Store Beetles, Cigarette Beetles, and Carpet Beetles. Thoroughly clean all flour, grain, and food dusts from horizontal surfaces, since these static accumulations encourage stored product pest breeding.

Spray EXCELCIDE PYRETHRIN - P.B. (Oil Soluble) with permanent spraying installations, portable electric sprayers, or foggers, as mentioned above, applying to walls, floors baseboards, wall floor junctures, window sills, doorway areas, and storage areas. Spray outside of storage sacks before storing. Spray box cars and store rooms before filling with grain, feed, or food products. Repeat at regular intervals or as often as necessary to control the named insects.

CAUTION

Harmful if swallowed. Do not remain in treated areas and ventilate the area after treatment is completed. Use the product as a space spray in food processing plants only when plant is not in operation. Foods should be removed or covered during treatment. All food processing surfaces should be covered or thoroughly cleaned before using. Do not use or store near heat or open flame. Do not reuse container. Destroy when empty.

NOTICE: The manufacturer and seller warrant that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of such use.
