

DIRECTIONS FOR USE

General. This CONCENTRATE is designed for dilution with light mineral oil for use in cold aerosol generators which produce a fog in which the big majority of particles are in the 5 to 50 micron range. Diluting oil should have a specific gravity of approximately 0.834 at 60 deg. F. and an initial boiling point of 503 deg. F., and end point of 837 deg. F. to give optimum particle size. An NF grade oil is preferred.

Successful applications have been made with

STORAGE AND DISPOSAL

STORAGE: Store in a secure area protected from water, food or feed. Keep container tightly closed when not in use. Do not transfer this product to unmarked storage containers. Store away from heat, strong oxidizers or open flame.

PESTICIDE DISPOSAL: Pesticide, spray mixture, or residue that is not used according to label instructions must be disposed of according to approved federal, state and local procedures.

CONTAINER DISPOSAL: Metal Containers—Single rinse (or equivalent). Then offer for remanufacturing or recycling, or puncture and dispose of in a sanitary landfill, or by other approved federal, state and local procedures. Plastic Containers—Triple rinse (or equivalent). Then offer for remanufacturing or recycling, or dispose of in a sanitary landfill, or by professional incineration if allowed by federal, state and local authorities.

This CONCENTRATE may be used in mosquito adulticiding programs involving residential and recreational areas, swamps, marshes, overgrown waste areas, roadsides and pastures where adult mosquitoes are present in annoying numbers.

Best results are obtained by application when there is a slight breeze - 5 miles per hour or less. Fog with the breeze so that wind will carry fog from roads or paths into the area to be treated. Repeat applications as needed to obtain desired reduction in adult mosquito population.

For Truck Mounted LECO Machine: Objective is to treat terrain with .002 to .0025 pounds of pyrethrins and .010 and .0125 pounds of piperonyl butoxide per acre. Dilute 1 part of CONCENTRATE with 1.4 parts (wt.) of oil to give a solution containing 5% pyrethrins plus 25% piperonyl butoxide. Fog this solution with a discharge rate of 2 to 2.75 fluid ounces per minute while machine is moving 5 m.p.h. and pressure is set at 3 lbs./sq. in.. Discharge nozzle is positioned approximately 30 deg. above horizontal off side of truck bed. Delivery rate and traveling speed can be varied slightly so long as the basic objective of .002 to .0025 pounds actual pyrethrins per acre is maintained. Use swath width of 300 ft. for acreage calculations.

ACTIVE INGREDIENTS:	100%
Pyrethrins	12%
*Piperonyl butoxide, technical	60%
INERT INGREDIENT	28%
*Consists of 48% (butyl carbonyl) (6-propylpiperonyl) ether and 12% other related compounds.	

CAUTION

KEEP OUT OF REACH OF CHILDREN

See side panel for additional cautions.

For HUDSON Back Pack. Stirve for some poundage of pyrethrins and piperonyl butoxide per acre us with LECO Dilute CONCENTRATE 1 part plus 17 parts oil (wt) to give a solution containing 67% pyrethrins plus 33% piperonyl butoxide. Fog this solution at the rate of 7 fluid ounces per acre, based on a 50 foot killing swath. The Hudson Back Pack is carried on the back of the individual treating the area. The individual should walk forward approximately 870 feet during discharge of the 7 fluid ounces. This is roughly at the pace of 2 miles per hour.

CAUTION

Harmful if swallowed. Remove spillage from skin and clothing with warm water and soap.

CONCENTRATE and dilute sprays from it are toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Do not contaminate any body of water with spillage or cleaning solutions containing this concentrate. Do not overdose any sump area or any area bordering streams or lakes. Apply this product only as specified on this label.

NOTICE

Seller and manufacturer warrant that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. This warranty is in lieu of all other warranties, express or implied, including warranties of merchantability and fitness for a particular purpose.
