

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Food Handling Establishments: Places other than private residences in which exposed food is held, processed, prepared or served.

Food Areas - Application Limited to Crack and Crevice Treatment Only: Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups) and serving areas (when food is exposed and facility is in operation).

To control roaches, ants, waterbugs, silverfish, spiders and crickets, apply in small amounts directly into cracks and crevices using equipment capable of delivering a pin stream of insecticide, in points between different elements of construction between equipment and floors openings leading to voids and hollow spaces in walls, equipment legs and bases, in conduits, motor housings, junction or switch boxes. Prior to application de-energize electrical equipment. After application allow time for oil to evaporate before starting motors or placing switches in "ON" position. Care should be taken to avoid depositing the product on to exposed surfaces or introducing the material into the air. Avoid contamination of food and food processing surfaces.

APPLICATION OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

Serving Areas: Facilities where foods are served such as dining rooms but excluding areas where foods may be prepared or held. Apply as a spot treatment to selective surfaces, such as baseboards under elements of construction and into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)

Non-Food Areas: Including garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Apply to baseboards areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter. Repeat treatment as required.

Brown Dog Ticks: Thoroughly spray infested areas around baseboards, window and door frames, wall cracks, sleeping quarters of household pets and localized areas of floors and floor coverings. Applications should be repeated as infestations warrant and as reinfestations occur. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with this formulation.

EXCELCIDE[®] C & C MALATHION RESIDUAL SPRAY INCLUDES CRACK & CREVICE DIRECTIONS

A Quick Acting Surface Spray for Indoor and Outdoor Use in Homes, Institutions, Restaurants, Food Processing Plants and Stored Grain Areas.

For control of Roaches, Ants, Spiders, Crickets, Clover Mites, Carpet Beetles, Brown Dog Ticks and Stored Grain Insects.

Residual Deposit Effective Against Resting House Flies, Wasps and Mosquitoes.

ACTIVE INGREDIENTS	
Pyrethrins	0.050%
*Piperonyl Butoxide, Technical	0.125%
**Malathion	2.000%
Aromatic Petroleum Derivative Solvent	7.625%
INERT INGREDIENTS	
	90.200%
	100.000%

*Equivalent to 0.1% (butylcarbitol) (6-propylpiperonyl) ether and 0.025% related compounds.

**0.0-dimethyl Dithiophosphate of diethyl mercaptosuccinate.

Keep Out Of Reach Of Children
CAUTION
(See additional cautions on side panel.)

THE HUGÉ COMPANY, INC.
Sanitation in the Food and Allied Industries
1725 PAISE BOULEVARD • ST. LOUIS, MO. 63133

Fleas, Ants, Brown Dog Ticks, Clover Mites, Crickets, Earwigs, Millipedes: **Outdoors:** For treatment of localized infestations of these insects in outdoor areas or where these insects may enter the dwelling, spray infested areas, thoroughly. For Ants, thoroughly wet hills and runways. Repeat treatment as necessary. Do not spray vegetation.

Flies, Mosquitoes, Wasps and Small Flying Moths: Spray surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages and other places where these insects alight or congregate. Repeat treatment as necessary.

STORED INSECTS: For the protection of stored grains such as wheat, oats, corn, rye, barley, grain sorghum and field or garden seeds against confused flour beetles, rice weevils, granary weevils, sawtoothed grain beetles, flat grain beetles, red flour beetles, rusty grain beetles, lesser grain borer and Indian meal moth.

Before storing grains, treat walls, floors and machinery grain elevators, truck beds, boxcars and ships' holds. Before loading grain, before applying C & C Malathion Residual Spray, clean elevators, boxcars, etc. thoroughly. Remove and burn all sweepings and debris.

Boxcars for loading and transporting bags of flour and packaged cereals: For the control of confused flour beetles, rice weevils, granary weevils, sawtoothed grain beetles, flat grain beetle, red flour beetle, rusty grain beetle, lesser grain borer, Indian meal moth and mill pests infesting empty boxcars which bagged flour and packaged cereals are to be loaded and transported. Apply as follows. Clean the boxcars thoroughly. Then remove and burn all sweepings and debris. Spray walls and floor to the point of runoff. Let the sprayed boxcars stand empty with doors open until the spray has thoroughly dried. Line the walls and the floor of the boxcars with kraft paper before loading.

Buyer assumes all risks of use, storage and handling of this product not in strict accordance with directions given herewith.

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION

CAUTION: May be harmful if swallowed, inhaled or absorbed through skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should be avoided. Do not use as a space spray. Wash after handling. Remove children, pets or fish bowls from quarters. Cover foods and any utensils that may be used for foods.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE AND DISPOSAL

PROHIBITIONS — Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse plastic containers. **PESTICIDE DISPOSAL** — Pesticide, spray mixture or rinsate that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. **CONTAINER DISPOSAL** — Metal container 30 gallons or more: (a) Reseal container and offer for reconditioning, or (b) Triple rinse (or equivalent) and offer for recycling, reconditioning, or disposal in approved landfill, or bury in a safe place. Metal containers less than 30 gallons: As in (b) above. Plastic containers less than 30 gallons: Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place. **GENERAL** — Consult Federal, State or Local disposal authorities for approved alternative procedures (such as limited open burning for plastic containers).
