Klothes Fresh Moth Disc

CAUTION: KEEP OUT OF REACH OF CHILDREN
Read precautions on back panel

MOTH KILLER DIRECTIONS: Brush and clean (free from grease) articles thoroughly before storing. One disc gives protection in 44 cubic feet of tightly closed space. Remove cellophane and hang or place in disc box above articles being stored. May also be used in drawers, trunks, chests, etc.

FOR MILDEW STORAGE PROTECTION: Remove any mildew growth from all articles in storage area. Remove cellophane and hang or place box above articles being stored. Keep storage place tightly sealed and disc will prevent growth and multiplication of mildew spores. Maximum protection is reached after 7 days (in a 44 cubic foot area). Replace disc when storage area is occasionally opened.

DO NOT MIX PURE PARA with Camphor, Naphthalene Flakes or Balls as these chemicals may cause crystals to melt. Neither fabrics subject to stain from perfume oil nor vinyl materials should come into direct contact with surface of disc.
