## HEAVY-DUTY CLEANER-DISINFECTANT

**FUNGICIDE    SANITIZER    DEODORIZER    MILDEWSTAT**

Powerful heavy duty cleaner, disinfectant, sanitizer, fungicide, mold and mildewstat, designed specifically for hospitals, nursing homes, veterinary establishments, schools, offices, industrial plants, food processing plants and all other applications where powerful cleaning and good housekeeping are of prime importance.

**ACTIVE INGREDIENTS:**  
 N-Alkyl (C14, 30%, C16, 5%, C18, 5%, C12)  
 dimethyl benzyl ammonium chloride . . . 08%  
 N-Alkyl (C12, 32%, C14)  
 dimethyl benzyl ammonium chloride . . . 08%

**INERT INGREDIENTS:**  
 Detergents, Buffers, Na2EDTA and Water . . . 84%

TOTAL 100%

Ⓣ Powerful heavy duty cleaner, disinfectant, and deodorizer formulated to disinfect inanimate hard surfaces such as walls, floors, operating rooms, patient care areas, food service areas, nurseries, restrooms, industrial and institutional facilities, food processing plants and all other areas where heavy duty cleaning, disinfecting and deodorizing are of prime importance. Efficacy tests demonstrate its effectiveness in the presence of organic soils such as 5% blood, sewage, and feces.

#### DIRECTIONS

**Disinfection:** For general use—add 4 1/2 oz. per gallon of water. At this dilution it is an effective disinfectant against *Salmonella choleraesuis*, *Staphylococcus aureus*, *Escherichia coli* and the pathogenic fungi *Trichophyton mentagrophytes*. For hospital disinfection—use 6 oz. per gallon of water for additional effectiveness against *Pseudomonas aeruginosa*. For heavily soiled areas pre-clean with the required dilution. To disinfect apply fresh solution to pre-cleaned area or lightly soiled areas and keep wet for 10 minutes then allow to air dry. Prepare a fresh solution for each use.

**Sanitization:** Use 8 oz. per 5 gallons of water for 200 ppm active quaternary solution to sanitize previously cleaned and rinsed nonporous food contact surfaces. For large areas such as tanks, chopping blocks, counters, tables, etc. thoroughly wet the surfaces for at least 1 minute with the 200 ppm dilution. For small items such as glasses, dishes, pots, pans and eating utensils immerse completely in the 200 ppm solution for 1 minute. Sanitized food contact surfaces must be rinsed with potable water prior to reuse.

**Mold and Mildewstat:** To prevent and control mold and mildew on hard nonporous surfaces clean surface then thoroughly wet with a 2 oz. per gallon dilution and allow to air dry. Repeat application using a fresh solution when mildew growth reappears. This heavy duty cleaner/disinfectant is an effective sanitizer when used in hot, cold, soft or hard water up to 500 ppm hardness.

#### PRECAUTIONARY STATEMENTS Hazard to Human and Domestic Animals

**WARNING: KEEP OUT OF REACH OF CHILDREN.** Causes eye and skin irritation. Do not get in eyes, on skin or clothing. Harmful if swallowed.

#### STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

#### STORAGE AND DISPOSAL

- DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.
- OPEN DUMPING IS PROHIBITED
- DO NOT REUSE EMPTY CONTAINER

**PESTICIDE DISPOSAL:** Pesticides that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide or buried in a safe place.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers. Rinse in a safe place.
