PHILADELPHIA, PA 19123**ACCEPTED****MAY 12 1990**Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 2296-95

Concentrated swimming pool Algaecide that keeps pool water clear and free of visible Algae and controls Algae Slimes. When used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green algae), *Phormidium brevistatum* (black algae), *Phormidium retzii* (square D algae), *Lyngbya versicolor* (blue-green algae) and other swimming pool algae. This product is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or pre-mixed with other water treating chemicals. The product works best when added by itself directly to pool water. At use, dilution is non-corrosive to inanimate objects.

DIRECTIONS FOR USE:**IT IS A VIOLATION OF FEDERAL LAW
TO USE THIS PRODUCT IN A MANNER
INCONSISTENT WITH ITS LABELING****Initial Dose:** Use 1 gallon to 50,000 gallons of water**Maintenance Dose:** Use 1 quart to 50,000 gallons of water. Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or reappear, repeat the treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose. A maintenance dose should be added at 3-5 day intervals. If high temperature prevails or pool has unusually heavy use, add maintenance dose more frequently.

If make up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of product to each 10,000 gallons of fresh make up water added per week.

When swimming season is over, add 1 gallon of product to 50,000 of water left in the pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying your state water board or regional office of the EPA.

**PRECAUTIONARY STATEMENTS
Hazard to humans and domestic animals****DANGER****Keep Out Of Reach Of Children. Corrosive.** Causes severe eye and skin damage. Do not get in eyes, skin, or on clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.**STATEMENT OF PRACTICAL TREATMENT**

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician, remove and wash all contaminated clothing before reuse. If swallowed, drink egg whites, gelatin or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage measures against circulatory shock, respiratory depression and convulsion may be needed.

STORAGE AND DISPOSAL**Do not Contaminate Water, Food Or Feed By Storage Or Disposal.** Storage: Store in a dry place between 50 F and 120 F.**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.**Container Disposal:** Do not reuse empty container. Triple rinse empty container with water. Rinse metal drum, then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by State or Local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated or, if allowed by local authorities, by burning. If burned, stay out of the smoke.
