Subject: **NACA Pine Oil Disinfectant**
EPA Registration Number 2296-104
Letter Dated: March 22, 2006
Receipt Date: March 24, 2006

Dear Mr. Socha:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the following conditions.

Proposed Amendment

- Revised labeling

Conditions

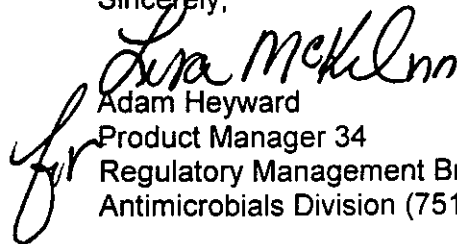

1. **Limited Efficacy Claims.** The label of a disinfectant which is effective against a specific major group of microorganisms only (e.g., Grampositive or Gram-negative) must specify on the label the major group against which it is effective. Therefore, you must list the names of the microorganisms that the subject product is effective against on the label.
2. The ATCC test numbers must be listed for each Microorganism. Refer to EPA DIS/TSS-1; January 22, 1982 "Disinfectant for Use on hard Surfaces" for detailed information.
3. Delete the statement "Keep Out of Reach of Children" from the precautionary statement.

General Comment

A stamped copy of the accepted labeling is enclosed for your records.

Should you have any questions concerning this letter, please contact me at (703) 308-6422 or Lisa McKelvin at (703) 308-7496.

Sincerely,

Adam Heyward

DISINFECTANT-DEODORANT-GERMICIDE-CLEANER

An effective disinfectant and deodorant against gram-negative bacteria. This product is especially recommended for use in apartment buildings, households, schools, office buildings, and industrial plants for disinfecting floors, walls, sinks, bathrooms, toilets, urinals, and outhouses. Can be used as a deodorant which is noticeable from 1 to 3 hours after use. It is instantly soluble in water forming a milky white emulsion which does not separate on standing. When mixed with water in recommended dilutions does not stain the walls, floors, or clothes, and leaves a pleasant and fragrant odor of pine.

For use on hard non-porous surfaces.

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS
PRODUCT IN A MANNER
INCONSISTENT WITH ITS LABELING

FOR DISINFECTING: Remove gross filth from surface prior to disinfecting. Prepare a solution of 3 1/2 tablespoons of disinfectant to one gallon of water. Wet surface thoroughly with the disinfecting solution and allow to remain for 10 minutes.

FLOORS: When mopping or scrubbing, use 3 1/2 tablespoons of disinfectant in each gallon of water in bucket.

TOILET ROOMS, COMMODOES, and URINALS: Wash the commode and urine bowl regularly with a solution of 3 1/2 tablespoons of disinfectant in each gallon of water, leaving the solution in the commode and urinal as long as possible. Scrub the floor and seat frequently with this solution. Remove residual bowl water from toilet before application of disinfectant.

GARBAGE RECEPTACLES: To aid in deodorization, sprinkle with a solution in the proportion of 4 tablespoons of disinfectant to a gallon of water. Rinse the empty can with some of the solution and leave the wash in the can.

TYPHOID SICKROOM: In the disinfecting of floors, walls, bed pans, clothing, bed clothes, and utensils, use 6 tablespoons per gallon. Soak

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals

DANGER

Keep Out Of Reach Of Children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, skin, or on clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.

FIRST AID

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

IF SWALLOWED: Call a Poison Control Center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL

DO NOT Contaminate Water, Food or Feed By Storage Or Disposal.

STORAGE: Store in a dry place between 50°F and 120°F.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Do not reuse empty container. Triple rinse empty container with water. Rinse metal drum, then offer for reconditioning or puncture and dispose of in a sanitary landfill or by other procedures approved by State or Local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated or, if allowed by local authorities, by burning. If burned, stay out of smoke.

Environmental Hazards: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.
