An effective disinfectant and deodorant against gram-negative bacteria for hard, nonporous, inanimate surfaces in non-medical areas. This product is especially recommended for use in apartment buildings, households, office buildings, and industrial plants for disinfecting floors, walls, sinks, bathrooms, toilets, urinals and outhouses. Can be used as a deodorant which is noticeable from 1 to 3 hours after use. It is instantly soluble in water forming a milky white emulsion which does not separate on standing. When mixed with water in recommended dilutions does not stain the walls, floors, or clothes, and leaves a pleasant and fragrant odor of pine.
