Attention: Alfred Pollack

Gentlemen:

Subject: NAC Mint Disinfectant
EPA Registration No. 2296-106
Your Amendment Dated July 13, 1990

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

1. Correct the spelling of Staphylococcus "aureus" in the first paragraph under the Back Label heading.
2. Under "For scissors, razors, and immersible items," add statement specifying the contact time necessary for disinfection.

Submit five copies of the finished printed label.

The revised Confidential Statement of Formula agrees with the label and is acceptable.

The 12-month storage and stability data enclosed in this submission is in compliance with Section 158.190 of Title 40 of the Code of Federal Regulations and is acceptable, and it satisfies the 1-year stability data requirement.

The submitted Material Safety Data Sheet and chemical identity of the fragrance Peppermint Fractions have been reviewed and are acceptable.

Back Label

This product is an effective disinfectant, germicide and deodorant with a pleasant mint odor. It is broad spectrum in its microbiological activity, effective against gram positive and gram negative bacteria, including *Salmonella choleraesuis*, *Staphylococcus aureus*, and *Streptococcus pyogenes*.

It is designed for general household use, office buildings, industrial plants, food industries, restaurants, gymnasium, locker rooms, public restrooms, hotels and motels. When used as a deodorant, the pleasant odor is noticeable for 1 to 3 hours after use. Can be used for general disinfecting and deodorizing of floors, walls, sinks, bathroom areas, toilets, urinals, refrigerators, telephones, stoves, garbage cans, basements, rubber goods, scissors, and razors.

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING

Regular Cleaning: Use 1 ounce per gallon of water.

General Disinfecting: Remove gross filth from surfaces. Thoroughly clean surfaces prior to application of product. Use a solution of 2 ounces per gallon. Apply by a sponge, mop, spray or swab. Keep surfaces wet for 10 minutes. Allow surfaces to dry.

Floors: When mopping or scrubbing use 2 ounces of disinfectant to each gallon of water.

Garbage Receptacles: To aid in inhibiting the growth of bacteria, spray with a solution of 2 ounces per gallon of water and leave the wash in the can.

To aid in the sanitary disposal (bacteriostatic odor-control) of urine and feces: Use 2 ounces of disinfectant per gallon of water.

Sickroom: Disinfecting of floors, walls, bed frames. Use 2 ounces of disinfectant per gallon of water. Apply by a sponge, mop or spray to wet all surfaces. Allow surfaces to dry without rinsing. For bed pans and utensils immerse in a solution of 2 ounces per gallon for 10 minutes. Rinse thoroughly with potable water.

Toilet rooms, water closets and urinals: For toilet bowls, remove water before disinfecting. Wash the toilet bowls and urinals with a solution of 2 ounces of disinfectant per gallon of water, thoroughly swabbing all bowl surfaces including under the rim, using a scrub brush or mop. Allow a contact time of 10 minutes. Scrub the floor and seat with this solution.

For scissors, razors and immersible items: Instruments must be thoroughly cleaned to remove excess organic debris, rinsed and then

Back Label

rough dried, clean and rinse the lumens of hollow instruments before immersion in a 2 ounces of disinfectant per gallon of water. Fresh solution should be prepared daily or when it becomes soiled or diluted.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

DANGER

Keep out of reach of children. Corrosive. Causes severe eye and skin damage. Do not get in eyes, skin, or on clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food. Remove and wash contaminated clothing.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink promptly a large quantity of water, do not induce vomiting, avoid alcohol. Get medical attention.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a dry place between 50°F and 120°F.

Pesticide Disposal: Pesticide wastes are acutely hazardous.

Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of according to label instructions contact your state Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA regional office for guidance.

CONTAINER DISPOSAL: Do not reuse empty container. Triple rinse empty container with water. Rinse metal drum, then offer for reconditioning or puncture and dispose of in a sanitary landfill, or by other procedures approved by state or local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated or, if allowed by local authorities, by burning. If burned, stay out of smoke.
