

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

National Chemical Laboratories of PA, Inc.  
401 North 10th Street  
Philadelphia, PA 19123

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase "EPA Registration No. 2296-109."
- b. Delete the letter "s" from the "Active Ingredient" heading. Not only one active i. declared.
- c. Place the signal word DANGER directly below "KEEP OUT OF REACH OF CHILDREN."
- d. Revise the referral statement to read:

See side panel for additional precautionary statements.

## CLEANER — DISINFECTANT — DEODORIZER

An excellent deodorant, especially effective in controlling odors that are bacterial in origin. Mixes readily with water and makes a clear stable solution. In use dilution, it is non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals. Has a pleasant mint odor. May be used through automatic floor scrubbing equipment.

**USE DIRECTIONS:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**FOR GENERAL DISINFECTION** of hard, non-porous inanimate surfaces (glass, metal, plastic, glazed porcelain, linoleum, tile, leather, vinyl, enamel and finished wood surfaces) on walls, floors, appliances and furnishings, in industrial and commercial offices, restrooms and work areas. Before disinfecting, preclean surfaces as directed above. Prepare 5 ounces per gallon of water and thoroughly wet the surfaces to be disinfected. The disinfecting solution must contact the surface for 10 minutes for proper disinfection. If desired, the surfaces may then be rinsed with clear water or wiped with a clean damp cloth.

**CLEANING AND DEODORIZING:** Whenever practical, flush away gross soils with water. For cleaning and deodorizing, use 5 to 8 ounces per gallon of water. Cleaning may be accomplished with a clean mop, sponge, squeegee, wet vacuum system, or a mechanical spraying device. After cleaning remove suspended soils with a clear water rinse, vacuum pick up, or wipe with a clean mop, sponge, squeegee or cloth.

**FOR CLEANING AND DEODORIZING OF GARBAGE CANS, GARBAGE TRUCKS, INDUSTRIAL WASTE RECEPTACLES AND OTHER GARBAGE HANDLING EQUIPMENT:** It is especially important to preclean, in order for the disinfectant to perform properly. Apply a wetting solution of 8 ounces per gallon of water.

**FOR CLEANING OF WALLS, FLOORS, AND INDUSTRIAL WORK AREAS:** Use 5 to 8 ounces per gallon of water. The use of rubber gloves is recommended for personnel doing continuous hand cleaning.

**PRECAUTIONARY STATEMENTS: Hazard to Humans and Domestic Animals**

**DANGER:** Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food. Avoid breathing spray mist.

**PRACTICAL TREATMENT (FIRST AID):** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, raw egg whites, gelatin solution, or if these are not available, drink a large quantity of water. Avoid alcohol. Call a physician immediately.

**PHYSICAL AND CHEMICAL HAZARDS:** Do not use or store near heat or open flame.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public water unless in accordance with an NPDES Permit. Do not contaminate water by cleaning of equipment or by disposing of wastes.

**DISPOSAL:** Do not reuse empty container. Wrap container and put in trash collection.
