DANGER: HARMFUL OR FATAL IF SWALLOWED

KEEP OUT OF REACH OF CHILDREN

U.S. D.A. NO. 23372

TOXOLEUM is a heavy-duty wood preservative that will keep your wood from rotting and decaying for years to come. It is the most effective wood preservative available today. It is easy to use and will protect your wood from all types of wood-boring insects and fungi.

It is especially useful for use on heavy wooden structures such as the deck, porch, and veranda, and on exterior woodwork. It is also useful for use on interior woodwork, such as window sills, door frames, and trim. It is the best wood preservative available today for use on all types of wood.

BRUSHING - Apply with a brush to all surfaces of wood to be treated. Use a heavy brush for dipping and a lighter brush for brushing. Apply liberally and allow to dry. It is the most effective wood preservative available today for use on all types of wood.

POISON

Keep out of reach of children. Do not eat, drink, or smoke while using. Wash hands thoroughly after use. Do not breathe dust. Do not get in eyes. If in eyes, flush with water. If on skin, wash with soap and water. If swallowed, do not induce vomiting. Call a doctor immediately.
