

BLOXROT-O
PENTA WOOD PRESERVATIVE
 AND SOIL POISON FOR TERMITES

FOR MILLWORK

Apply Bloxrot-O to all millwork to protect against termites. Use a brush or spray nozzle. Dip brush in solution and apply to wood. Repeat every 3 months during the first year. Brush with BLOXROT-O.

FOR FENCE POSTS

Fence posts, poles, foundation timbers and heavy wooden members should be free of bark, dry and well-seasoned and immersed in BLOXROT-O for a period of 12 to 48 hours to be an effective wood preserver.

Net Content: 5 Gallons

BLOXROT-O is effective for termite control in soil and for protection of buildings.

DIRECTIONS
TERMITE CONTROL

For termite control, use wood preservative under ground in the soil. Apply BLOXROT-O under ground by means of a hole 1/2 inch in diameter, one per five square feet of ground. Break up work—earth, concrete, such as porch steps, door frames, etc., and replace with 1x4 or 1x6 lumber or concrete. Where construction permits, dig a trench 12 inches deep around the entire outside foundation but not below the top of the footing of the foundation. Five gallons of BLOXROT-O shall be used per 100 linear feet of trench for trenches 12 inches deep. For deeper trenches, 15 gallons of BLOXROT-O per 100 linear feet of trench must be used.

Trees, shrubbery or flowers should be protected from the treated soil by tar or heavy kraft paper. BLOXROT-O used as a soil poison as directed will adequately protect or insulate buildings against subterranean termite attacks.

It is recommended that protective clothing and rubber gloves be worn when handling the freshly treated lumber.

BLOXROT-O is not to be used with water. It is not to be used on water pipes or other fixtures. It is not to be used on water pipes.

BLOXROT-O
PENTA WOOD PRESERVATIVE

(AND SOIL POISON FOR TERMITES)

KEEP OUT OF REACH OF CHILDREN

STOP
ROT AND
DECAY

DANGER HARMFUL OR FATAL IF SWALLOWED
 SEE CAUTION STATEMENT ON SIDE PANEL

U.S.D.A. REG. NO. 2337-7

DESTROYS TERMITES
PREVENTS ROT-DECAY
FUNGUS-MOLD
EXTRA EFFECTIVE
AGAINST TERMITES
AND LYCTUS BEETLES.
LEAVES WOOD CLEAN,
NON-BLEEDING
WHEN DRY.

CAUTION:
 HARMFUL OR FATAL IF SWALLOWED OR ABSORBED THROUGH SKIN. Causes skin irritation. Do not breathe vapor or spray mist. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling.

In case of swallowing, administer a cathartic such as milk, raw egg white, ground cornstarch, etc. Follow up with an emetic using mustard water, salt water, or any downy fluid or other methods. Call a doctor.

Do not use on water pipes or other fixtures.
