NET WEIGHT 12 OUNCES

kleenkil®

PREFERRED BECAUSE IT SMELLS GOOD

House & Garden KLEENKIL Takes the Place of Several
Single Purpose Insecticides.

INSTRUCTIONS: SHAKE WELL BEFORE USING

INDOORS:

Flies, Mosquitoes, Gnats—Close up the infested area and fill it with mist, directing spray toward upper corners of room. Keep space closed for at least 10 minutes after treatment. Do not remain in treated areas. Ventilate the area after treatment is completed.

Roaches, Ants, Fleas, Silverfish—Spray thoroughly and repeatedly into cracks of woodwork, walls, floors and areas around the door frames and around window frames where pets enter the premises. Spray directly on insects when possible. For Flea Control, spray thoroughly the animal quarters of pets in the household; also floor coverings such as rugs and carpets.

OUTDOORS:

Flies, Mosquitoes, Gnats—Stand with back to wind with arm outstretched. Spray area to be covered thoroughly, letting mist drift over area to be relieved. Repeat as necessary.

USE AS PLANT SPRAY:

Apply spray during evening or upon a cloudy day in short bursts, at a distance of about 24" from the plant foliage. Spray both sides of the foliage lightly avoiding excessive amounts of wetting of the leaves. The spray may be used on inside pot

plants. It should not be applied to seedlings, new growth or Maidenhair Fern, Oxellis (Shamrock) Lantan or Cyclamen. Do not apply on vegetable crops two weeks before harvest. This spray is effective against the accessible stages of Aphids, Spider Mites, Mexican Bean Beetles, Pavement Ants, Striped Cucumber Beetles and Army worms (Cirphis Unipuncta) in whorls of corn. Effective against Japanese Beetles, Soft Brown Scales and Mealy Bugs only when directly sprayed. Can be used on such plants as Roses, African Violets, Asters, Azaleas, Begonias, Beans, Camellias, Carnations, Corn (whorls), Chrysanthemums, Cucumber, Dahlias, Geraniums, Grapes, Laurel Marigolds, Peppers, Rhododendrons, Rubber Plants, Snapdragons, Tomato and Zinnias.

WARNING: Flammable! Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperature above 130°F may cause bursting. Remove pets, birds and cover fish aquariums before spraying. Foods should be removed or covered during treatment. All food processing surfaces should be covered before using. When using the product in these areas, apply only when the facility is not in operation.

ACTIVE INGREDIENTS:

Fyrethrins	0.25%
Technical Piperonyl Butoxide	1.0%
(equivalent to .80% (butylcarbityl) (6-propylpiperonyl) ether and 0.20% related compounds)	
Isoparaffinic petroleum distillate	1.0%
INERT INGREDIENTS	97.7%

Made in U.S.A.
