PLEASANTLY SCENTED

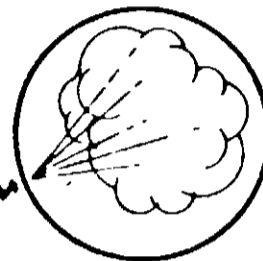

DeMert

fog-a yard

Kills insects up to 20 feet away

Spray from center when calm.

Spray with breeze if windy.

This new spray for use in picnic areas, patios, and backyards contains pyrethrins. The new high pressure Fog-a Yard pyrethrin formula will kill insects up to 20 feet away. Pyrethrins are extracted from a daisy-like flower grown in Kenya, East Africa.

DIRECTIONS: SHAKE WELL BEFORE USING
FOR FLYING INSECTS: Flies, mosquitoes, gnats. Stand with back to wind with arm outstretched. Spray area to be covered thoroughly, letting mist drift over area to be relieved. Repeat as necessary.

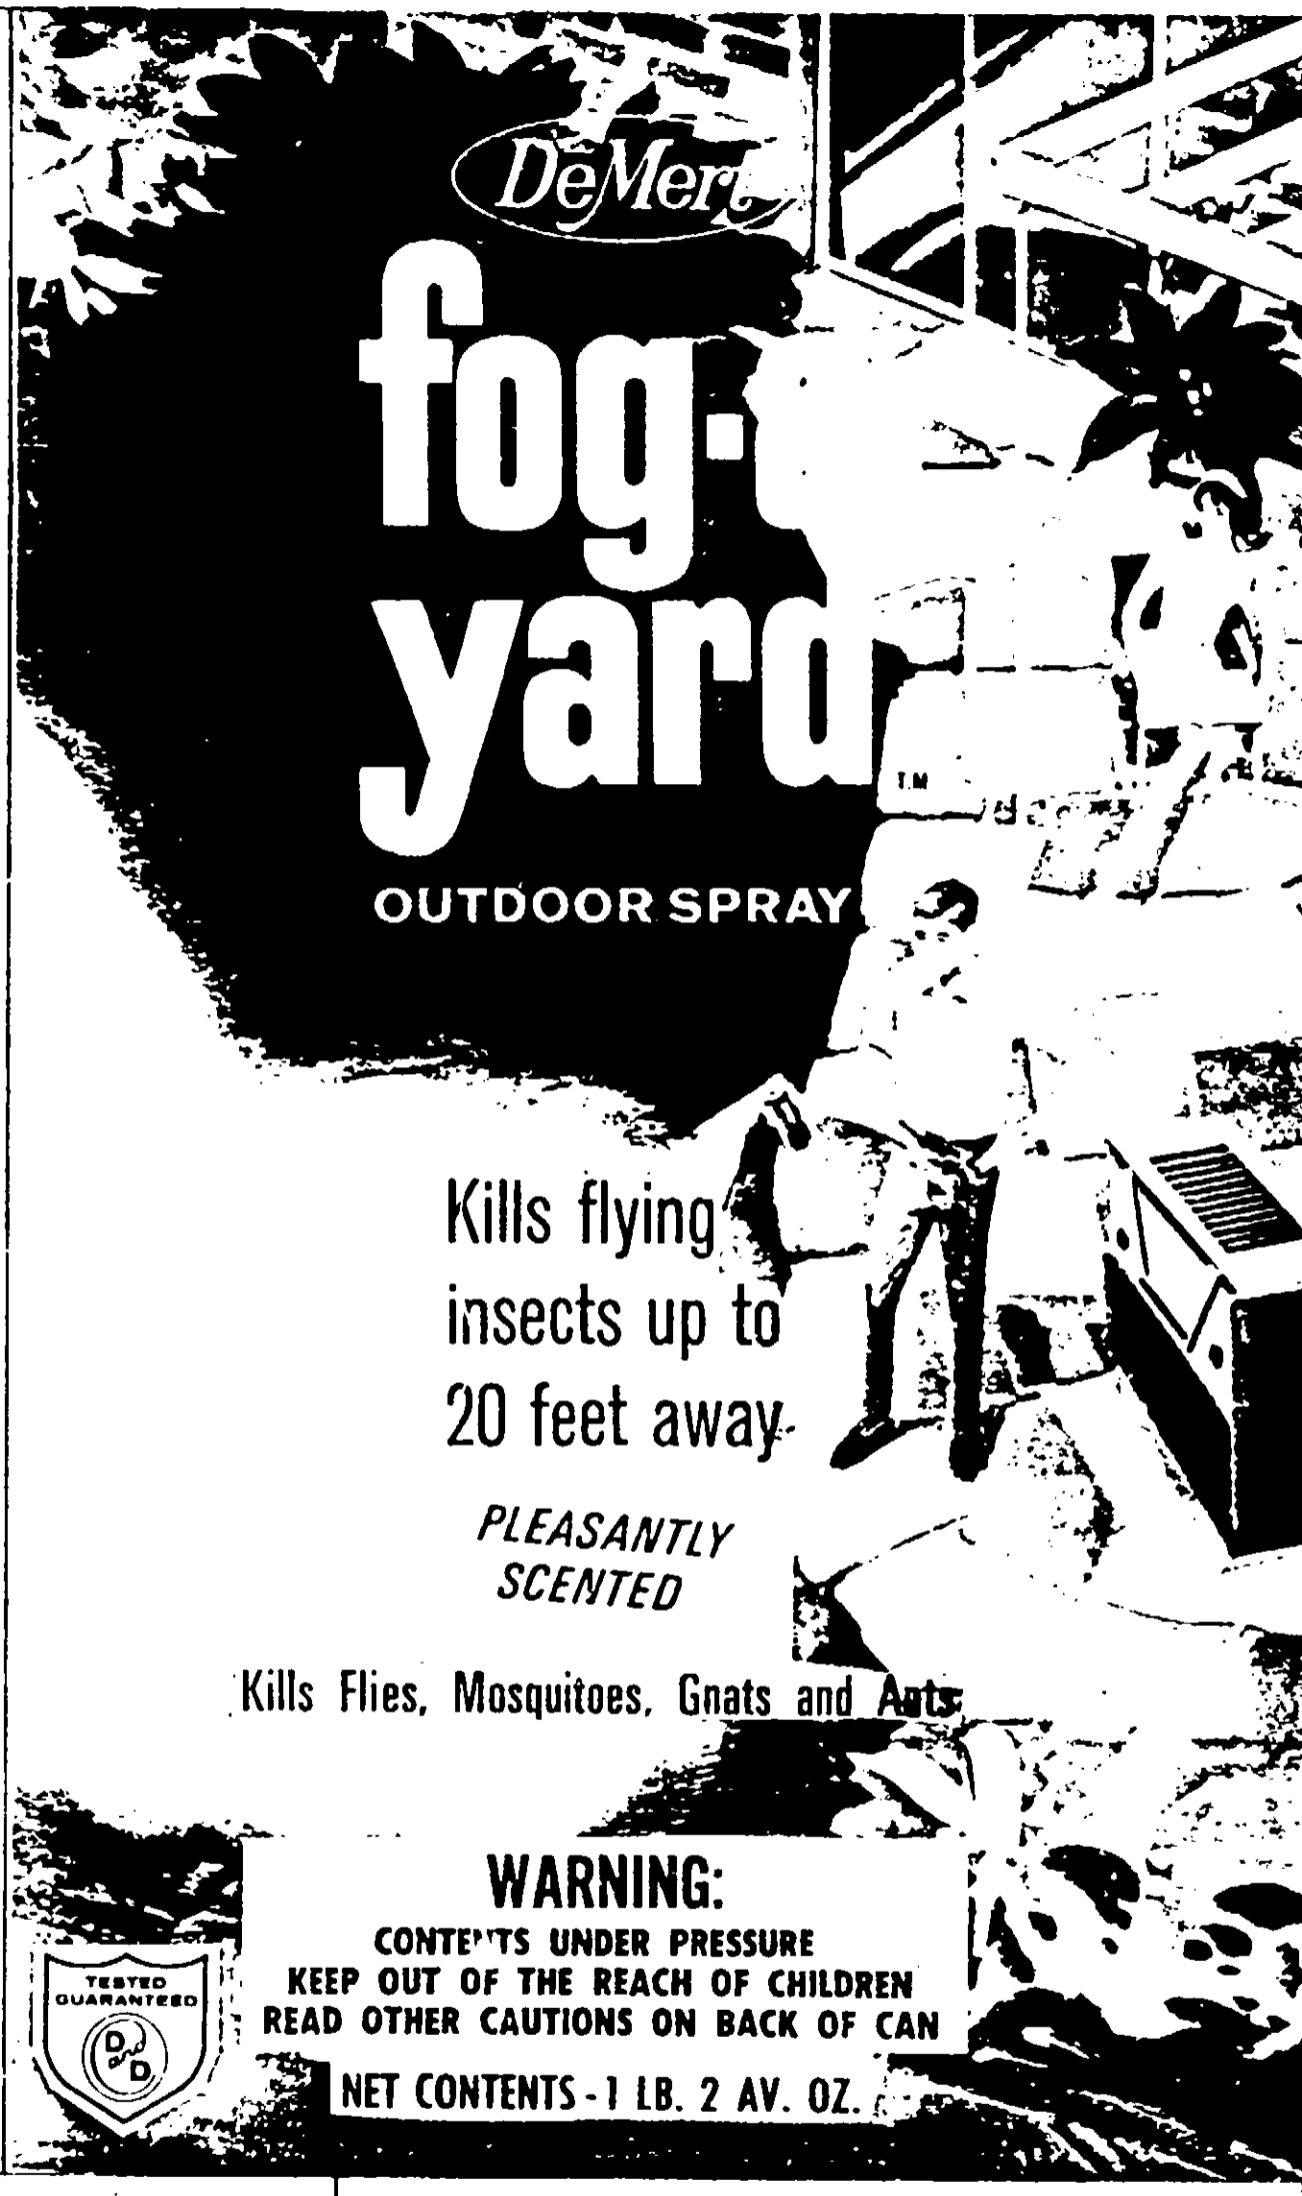

FOR CRAWLING INSECTS: Ants. Spray infested surface of patio or picnic area hitting as many insects as possible.

WARNING: Flammable! Contents under pressure. Do not use near fire, sparks or flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Foods should be removed or covered during treatment. All food processing surfaces should be covered before using. When using the product in these areas, apply only when the facility is not in operation. Do not spray near fish ponds. Keep out of reach of children.

ACTIVE INGREDIENTS:
