**ACTIVE INGREDIENTS:**

\*Dimethylamine Salt of  
2,4-Dichlorophenoxyacetic Acid 01.59%

\* (2,4-Dichlorophenoxyacetic Acid  
Equivalent 1.32%

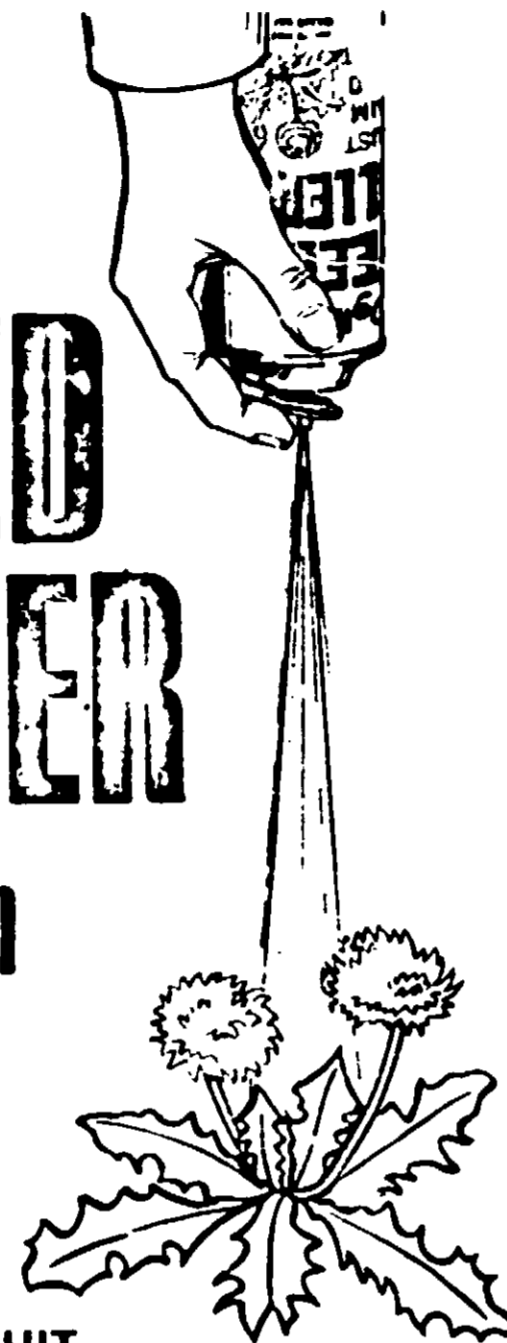

**INERT INGREDIENTS 98.41%**

**WARNING: KEEP OUT OF THE REACH  
OF CHILDREN**

**SEE BACK PANEL FOR REQUIRED CAUTIONS**

**NET. WT. 23 OZ. (1 lb. 7 oz.)**

\*Equivalent 1.32%

*DeMert*  
**WEED KILLER**

Quick easy way to kill dandelions, plantains, thistle, curly dock, poison oak, poison ivy and many other broadleaf weeds with powerful 2, 4-D. White foamy mark shows weeds you have hit. If used as directed this can of DeMERT Weed Killer will provide 400 to 500 short bursts of spray to kill as many weeds.

**DIRECTIONS:**

1. Shake before use and occasionally during use.
2. Hold container upside down and place tip of index finger on flat portion of actuator, being careful not to cover spray opening.
3. Press actuator firmly, directing spray at center portion of weed.
4. Do not overspray. A split-second shot kills a medium-sized weed.

**IMPORTANT:** Do not spatter shrubs and other desirable plants. For best results, apply on a warm day when no rain is expected for 6 — 8 hours and when weeds are growing vigorously. Weeds should die within 7 — 10 days. Some hardy weeds may require a second application. Avoid mowing for 2 days after use. Do not use on dichondra, clover, bent, carpet, St. Augustine or newly seeded areas, unless injury from spot treatment can be tolerated. Protect crops from drifting mist.

**CAUTION:** Avoid contact with eyes, skin and clothing. Avoid inhalation. Keep away from children.

**WARNING:** Contents under pressure. Do not set on stove, radiator or place where temperature exceed 120°F, as container may burst. Do not puncture or throw in fire. Do not store near fertilizers, seeds, insecticides, or fungicides.
