Product
No. 20-754611

FASCO Seminole[®] Neutral C-Z-S 15 is a formulation of neutral copper, neutral zinc, and sulphur for use on citrus.

DIRECTIONS

Use contrary to these directions may result in injury to the foliage, in unsatisfactory control or in other unintended consequences.

CITRUS: Use 12 to 15 lbs. to 100 gallons of water, sift into tank when one half to two thirds filled with water. Be sure to have agitator running while filling to insure adequate mixing.

DORMANT — Against Scab on Citrus — apply just before growth appears, usually late January or early February. Where infestation is severe use FASCO Seminole Neutral C-Z-S 15 at the rate of 20 lbs. to 100 gallons of water.

POST BLOOM SPRAY — Against Scab, Melanose, and Rust Mite apply one to two weeks after petal fall. Spray thoroughly to cover all twig and leaf area, being particularly careful to cover the topmost parts of trees.

CAUTION

Sulphur may burn foliage when temperature is high. Do not make sulphur applications at such time.

WARNING

Don't keep poisons where food is handled or stored. Avoid food contamination.

DANGER TO FISH AND WILDLIFE

This product is poisonous to fish and wildlife. Keep out of lakes, streams and ponds. Do not apply when weather conditions favor drift of this product from areas treated. Rinse equipment and containers and dispose of wastes by burying in non-crop lands away from water supplies. Containers should be disposed of by punching holes in them and burying with wastes, or by burning. (Keep out of smoke).

ANTIDOTE

If taken internally induce vomiting by giving mustard and water and tickling the throat. Give large dose of magnesia or lime water. Follow with strong dose of Epsom Salts. Call a physician or take patient to hospital.

CONDITIONS OF SALE

All statements concerning the use of this product apply only when used as directed. The manufacturer makes no warranties, expressed or implied, concerning this product or its use, which extend beyond the description on the label. Read all directions carefully.
