TOTAL — 100.00%

**CAUTION:** Keep out of the reach of children. See below for additional cautions.

FASCO MANG-Z-KOP TOMATO SPRAY is a formulation of Neutral Copper, Neutral Zinc and Neutral Manganese for use on crops as a fungicidal and nutritional spray.

Contains effective adjuvants to prevent flocculation or clumping, delay settling out, and produce a more even and highly adhesive deposit on sprayed plants.

### DIRECTIONS

Use contrary to these directions may cause serious plant, crop or personal injury, excessive residues, unsatisfactory control or other unintended consequences.

**TOMATOES, PEPPERS, POTATOES and CELERY** — Against Early and Late Blights of tomato and potato, Frogeye Spot of pepper, Early Blight of celery, and for nutritive value of Copper, Zinc and Manganese use at the rate of 6 pounds to each 100 gallons of water. Sift required amount of material into tank after it is at least 1/2 full with agitator in operation until all spray has been applied. Begin using fungicides before diseases appear and spray every 3 to 7 days as needed. Use this product in regular fungicidal program, substituting this product every 7 to 14-days when nutritional requirements indicate the need.

This Product is compatible with most of the commonly used wettable powder and liquid emulsifiable concentrate insecticidal formulations.

### CAUTION

Harmful if swallowed. Avoid food contamination. Do not get in eyes, on skin or clothing. This product is toxic to fish and wildlife. Keep out of any body of water.

### CONDITIONS OF SALE

All statements concerning the use of this product apply only when used as directed. The manufacturer makes no warranties, expressed or implied, concerning this product or its use, which extend beyond the description on the label. Read all directions carefully.
