

# SEVIN DUST 7½-40

FASCO Sevin Dust 7½-40 is a contact insecticide for use on cotton, corn, sorghum, and other crops. It is effective against a wide range of insects, including beet beetles, bollworms, and aphids.

### DIRECTIONS FOR USE

Apply Sevin Dust 7½-40 to the foliage of the crop. Use a backpack sprayer or a hand-held dust applicator. Apply in the early morning or late afternoon to avoid the heat of the day.

**COTTON** - Apply Sevin Dust 7½-40 to the foliage of the cotton plant. It is effective against bollworms, beet beetles, and aphids. Apply at the first sign of infestation.

**CORN** - Apply Sevin Dust 7½-40 to the foliage of the corn plant. It is effective against beet beetles, bollworms, and aphids. Apply at the first sign of infestation.

**APHIDS**

<b>ACTIVE INGREDIENTS:</b>	<b>BY WEIGHT</b>
Carbaryl (1-Naphthyl N-Methylcarbamate)	7.5
Surfactant	40.0
<b>INERT INGREDIENTS:</b>	52.5

**CAUTION!** HARMFUL IF SWALLOWED OR INHALED.

**KEEP OUT OF REACH OF CHILDREN**

Do not apply after bolls open. Do not graze treated fields or feed cotton trash to dairy animals or meat animals.

### CONTAINER DISPOSAL

Do not reuse the empty container. Destroy container when empty by burying with wastes or by burning. (Stay out of smoke and fumes.)

Note for Physicians: Carbaryl is a moderate, reversible cholinesterase inhibitor. Atropine is antidotal.

**BEE CAUTION:** This product is highly toxic to bees exposed to direct treatment or residues on crops. Protective information may be obtained from your Cooperative Agricultural Extension Service.

**CONDITIONS OF SALE:** All statements concerning the use of this product apply only when used as directed. The manufacturer makes no warranties, expressed or implied, concerning this product or its use which extend beyond the description on the label. Read all directions carefully.
