ENDURO SPRAY (WETTABLE) SULPHUR

Net Contents
50 Pounds

Product
No. 506

ACTIVE INGREDIENTS

Sulphur (Elemental) as "S"	Not less than ---	90.00%
INERT INGREDIENTS	Not more than ---	<u>10.00%</u>
		100.00% TOTAL

Mesh Test: Not less than 93% thru 325 Mesh Screen.

CAUTION: KEEP OUT OF THE REACH OF CHILDREN

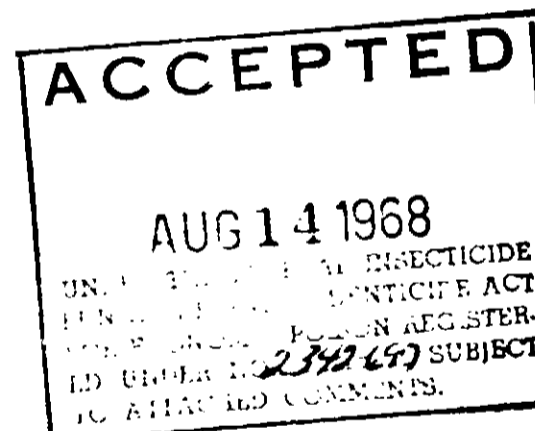

FOR SPRAYING AND DUSTING

When ENDURO Spray SULPHUR is formulated principally for use as a wettable sulphur, it can also be highly recommended for dusting purposes when applied to moist foliage. Under such conditions the blood albumen it contains will dissolve then dry into a semi-soluble compound that imparts superior adhesive properties to the dust.

CAUTION

Sulphur may burn foliage when temperature is high. Do not make sulphur applications at such times.

USDA REG. NO. 2342-3

DIRECTIONS

FOR USE ON Citrus, beans and other crops where sulphur is required.

CITRUS - As a spray against Citrus Rust Mite, use 5 lbs./100 Gallons (25 lbs/500 Gallon Tank). Begin application when mites first appear, as full coverage sprays. Repeat as needed.

BEANS, PEAS - As a spray against Powdery Mildew and Rust use 10-16 lbs/100 gallons of water. Begin application when signs of disease appear, repeat at 7-10 day intervals as needed.

PEACHES - As a spray against Brown Rot and Scab, use 6 lbs./100 Gallons of water in pink and bloom sprays, petal-fall, shuck and cover sprays.

CONDITIONS OF SALE

All statements concerning the use of this product apply only when used as directed. The manufacturer makes no warranties, expressed or implied, concerning this product or its use, which extend beyond the description on the label. Read all directions carefully.
