

nitro-  
ganic

WITH  
**Weed  
Killer**

**HOW TO USE**

Nitrogenic Weed Killer is an All Organic Fertilizer combined with 2,4-D and Silver 2-(2,4,5-TP) weed killers. Besides feeding lawns, grasses, this product controls such broadleaf weeds as chickweed, oxalis, dandelion, dockhorn, plantain, quackgrass, ground ivy, nutsack medic, knot weed and thistle. The contents of this box will cover 5,000 square feet of lawn area. Best results are obtained if applied when grass is green from dew, rain or watering. During dry weather, water lawn more than 24 hours prior to application. For persistent insects, an insecticide with this product may be necessary.

**APPLY RATE**  
**SPECIAL SETTINGS**

For Lawns: 1/2 lb. per 1,000 sq. ft.  
For Pastures: 1 lb. per 1,000 sq. ft.  
For Commercial Lawns: 1/2 lb. per 1,000 sq. ft.  
For Commercial Pastures: 1 lb. per 1,000 sq. ft.

For persistent insects, an insecticide with this product may be necessary.

will receive... watered...  
Do not...  
heavy use of lawn for at least 24 hours after application.

**CAUTION**  
Avoid contact with eyes, nose, mouth, or skin. Wash hands thoroughly after use. Do not ingest. Do not eat or drink. Do not store near food, feed, pens, insecticides, or medicine. Do not contaminate irrigation system, or water used for drinking purposes. Do not apply directly to person, pet, dust, or fabric. Do not allow product to drift onto vegetable gardens, ornamentals, shrubs, and trees. Do not apply to newly seeded lawns.

**DANGER TO FISH AND WILDLIFE**  
This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

**CONTAINER DISPOSAL**  
Do not reuse container. Destroy by burying in a safe place away from water supplies. Do not burn.  
**USE PRECAUTION** - This product should not be used on St. Augustine grass or Dichandra as injury may occur.

**CONDITIONS OF SALE**  
All statements concerning the use of this product apply only when used directed. The manufacturer makes no warranties, expressed or implied, concerning this product or its use, which extend beyond the description on the label. Read all directions carefully.

**DIRECTIONS**

**KILLS: Poison Ivy and Poison Oak—  
roots and all!**

For spot treatment in non-crop areas, such as fence rows, vacant lots and waste areas. Contains added ingredients to spread the spray and hold it fast to the shiny leaves. Absorbed through the leaves, **Poison Ivy Killer** is carried within the entire plant down into the roots, killing the entire plant. This action takes two weeks or longer but effects may be noticeable within 10 days. May be used at any time of the year.

For close spraying hold button half way down and for distance spraying (up to 15') hold button all the way down. Spray in short bursts to the point of run off. Aim spray at top leaf clusters first, working the spray down to the base. For higher, aerial rootlets, spray from shoulder level to base. For Poison Ivy entwined in Privet or Lilac, cut vines at base, rather than risking spray injury to these plants.

**WARNING**

Avoid contact with skin, eyes or clothing. Spray drift may kill adjacent plants. Avoid spraying on windy days or spraying too close to desirable plants. Do not use in greenhouse or store near seeds, fertilizers, or insecticides. Store away from heat and do not use near open flames. Do not puncture or incinerate container. Keep out of reach of children.
