CONDITIONS OF SALE: The Kerr-McGee Chemical Corp., makes no representation or warranty except as appears on this label, and shall not be responsible for any injury to person or property resulting from improper use.

DIRECTIONS FOR USE  
(Could vary with area)

ALFALFA: For control of alfalfa weevil, spittlebug, leafhopper and aphids.

FIRST CUTTING: Apply 2-3 quarts per acre as soon as weevil damage appears in the field. Early application is desired to control the weevil when they are small. Do not apply within 7 days of harvest. Do not apply after full bloom.

STUBBLE SPRAYING: In areas where weevil appears at cutting time. Remove the first cutting and apply 2-3 quarts per acre to the stubble to control weevil larvae and aphids.

SECOND AND SUBSEQUENT CUTTINGS: Apply 2 to 3 quarts per acre to control alfalfa weevil, leafhopper and aphids as these insects appear. Do not apply within 7 days of harvest.

NOTE: This pesticide is to be sold ONLY in this original unbroken package.
