

SKOAL: A HARD WATER SANITIZER.

Use as First Tank Cleaner and Last Tank Sanitizer.

State of Wisconsin Directions for Washing Glasses and Dishes:

1. Scrape and pre-wash glasses and utensils whenever possible.
2. Wash with SKOAL or RIESEN CLEAR GLASS — add 1 ounce to tank of water.
3. Rinse with clean water.
4. Sanitize in a solution of SKOAL of 1 ounce to 1 gallon of water in last tank (200 ppm of sanitizer). Immerse all glasses and dishes for at least two minutes, or for contact time specified by governing code.
5. (Federal requirement: Rinse with potable water. Then) Place sanitized glasses or dishes on rack or drainboard to air dry. (Towel if necessary.)

Effective in hard waters up to 500 ppm of hardness calculated as CaCO_3 .

Note: Rinse empty container thoroughly with water and discard.

EPA Reg. No. 2344-4.

EPA Est. No. 02344WI01.

and first aid statements.

ACCEPTED

**TASTELESS
AND
ODORLESS**

SKOAL is a sanitizer using wetting agents and acid. SKOAL cleans the scum off of old wine glasses and whiskey pourers. Just let them soak in the solution. It is effective in hard water up to 500 ppm of hardness calculated as CaCO₃.

DANGER:

KEEP OUT OF REACH OF CHILDREN.
CORROSIVE. CAUSES EYE DAMAGE AND SKIN IRRITATION. DO NOT GET IN EYES, OR SKIN, OR ON CLOTHING. PROTECT EYES AND SKIN WHEN HANDLING. HARMFUL IF SWALLOWED. AVOID CONTAMINATION OF FOOD.

FIRST AID:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.
If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or, if these are not available drink large quantities of water. Call a physician immediately.

NOTE TO PHYSICIAN:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.
