Active Ingredients	By Wt.
diuron Allchlor, aryl homolog of Cinerin I	300%
Related compounds	023%
3-Phenoxybenzyl di-cis and trans-2,2-dimethyl-3-	
2-methylpropenyl cyclopropanecarboxylate	.191%
Other isomers	.009%
Petroleum distillate	14.477%
Inert Ingredients	85.000%
cis, trans phenothrin	
cis/trans isomer ratio	max 25% or — cis
	min 75% or — or — trans

CAUTION

See back page for additional precautionary statements

NET WT. 5 OZ.

[illegible]

10) OPERATE VALVE: Lock valve in open position for automatic discharge, push down firmly with thumb on trigger, turn end of hose into place. Then place fogger at least 6 feet in center of room with valve locked open, placing several layers of newspaper or pad under fogger. Leave building at once and keep building closed for 4 hours before airing out. Open all doors and windows and allow air for 30 minutes. Repeat spraying later, as needed, when necessary.

To Kill Ticks: Remove and destroy pet's old bedding. Apply insecticide as for other insects. Put fresh bedding in pet's cage after treatment. Treat dogs and cats with a regular flea and tick product before allowing them to enter another home.

To Kill Fleas,

SUGGESTION: If the student is having difficulty with the first two questions, ask them to write down the first two questions and then ask them to write down the first two questions.
