Dear Dr. Miller:

Subject: Label Revision and Revision of Alternate Formulation  
Pesticidal Shampoo  
EPA Reg. No. 2382-25  
Submission: September 3, 1993

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. One copy of the finished labeling must be submitted prior to releasing the product for shipment.

Kittens and puppies under six weeks of age are often adversely affected by pesticidal shampoos. We, therefore, require that you add the language to the Hazards to Humans and Domestic Animal section, prominently displayed, "DO NOT TREAT KITTENS OR PUPPIES LESS THAN SIX WEEKS OF AGE. Avoid contact of material with eyes and mouth of animal."

The revised alternate formulation you have submitted for this product is acceptable and has been placed in your file jacket.

Sincerely,

Adam Heyward
