**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS and DOMESTIC ANIMALS**

CAUTION TO HUMANS: Avoid contact with skin. Harmful if swallowed or inhaled. Avoid contamination of foodstuffs. Wash hands after applying.

CAUTION: Some cats may be sensitive to Paracide With Sevin* spray. Do not exceed recommended dose. Do not spray kittens and puppies. For kittens or puppies over 4 weeks of age, wrap the animal in a towel which has been sprayed lightly. Leave the nose and mouth exposed for normal breathing. Keep the animal wrapped for 5 to 10 minutes. Fleas may then be removed from the coat by picking or combing. Carbaryl is a cholinesterase inhibitor. Do not use this product on animals simultaneously or within a few days before or after treatment with or exposure to cholinesterase inhibiting drugs, pesticides, or chemicals. Atropine is antidotal. Consult veterinarian at first sign of adverse reaction.

PHYSICAL and CHEMICAL HAZARDS - FLAMMABLE! Avoid spraying in eyes. Contents under pressure. Do not use near fire, sparks, or flame. Do not puncture or incinerate container. Exposure to temperatures above 120 degrees F may cause bursting.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Shake bomb well. Holding the bomb upright, point nozzle opening in direction spray is desired. Release spray by depressing valve. From a distance of 6 to 12 inches, direct spray over the animal until the entire coat is damp. A 30 to 45 second application is usually sufficient to treat an average sized dog, for cats, 10 seconds. On heavily coated animals, ruffle the coat and spray against the lay of the hair. For best results in controlling ticks, spray, directly, on the tick. Thoroughly spray interior of kennel or other sleeping quarters. Repeat treatment as necessary but not more often than once weekly. This spray may discolor the coat of white haired animals in the presence of oxidizing agents. Whitener, shampoos and bleaching agents are oxidizing agents. Do not treat rugs, carpets, drapes and other fabrics. Avoid application to structural surfaces where visible spray residue is objectionable.

STORAGE and DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

Mr. B.C. Burns
Carson Chemicals, Inc.
P.O. Box 466
New Castle, IN 47362

Dear Mr. Burns:

Subject: TF-7 Powder
EPA Registration No. 2382-18
FLT Spray
EPA Registration No. 2382-71
Paracide With Seven
EPA Registration No. 2382-64
Your Application Dated September 14, 1983

The data you submitted on September 14, 1983 entitled "Evaluation of the Residual Control of Fleas (Ctenocephalides Felis) on Dogs with Three Carbaryl Formulations" have been reviewed. The data are acceptable and support labeling claims for the above products. Please be reminded concerning E.P.A. Registration No. 2382-18 (TF-7 Powder) that the revised label must not exceed the 16-day residual killing time.

Sincerely yours,

Jay S. Ellenberger
Product Manager (12)
Insecticide-Rodenticide Branch
Registration Division (TS-767)
