

70.5-A

**DIRECTIONS:** Use one 6 oz. dispenser for each 4,000 cubic feet of room volume. Remove pets, birds and fishbowls from area to be treated. Cover exposed foods and food handling equipment. Open kennel doors, cabinets and other enclosures to allow maximum mist penetration. Use additional dispensers for remote rooms or where free flow of mist is not assured. Shut off all fans and air conditioners. Close all outside windows and doors. Extinguish all open flames including pilot lights.

For best results place in center of area to be fogged. Applicator should hold dispenser at arm's length when releasing. Depress spray nozzle, rotate outer cap to locked, automatic release position and leave building immediately. Entire contents will automatically be released. Leave room undisturbed for 2 hrs. Open doors and windows and allow room to air for at least 30 minutes.

**CAUTION:** Harmful if swallowed. Avoid skin contact or inhalation of mists. Avoid contamination of feed, foodstuffs or food handling equipment. Wash hands after using.

**WARNING:** Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperatures above 130° Fahrenheit may cause bursting. Never throw container into fire or incinerator.

**STAINLESS AUTOMATIC INDOOR FOGGER**

**A convenient method of fogging kennels, hospitals and homes.**

<b>Active Ingredients:</b>	
Ronnel*	2.40%
Pyrethrins	0.16
Technical Piperonyl Butoxide**	1.60
