

7023-1-L

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS (AND DOMESTIC
ANIMALS)**

CAUTION
DO NOT USE ON HUMANS. AVOID INHA-
LATION OF SPRAY MIST. AVOID CON-
TACT WITH SKIN OR EYES. VAPOR OR
SPRAY MAY BE ABSORBED THROUGH
THE SKIN. HARMFUL IF SWALLOWED.
AVOID CONTAMINATION OF FEED AND
FOODSTUFFS. WASH HANDS THOROUGH-
LY AFTER USING AND BEFORE EATING
OR SMOKING. CHILDREN SHOULD NOT BE
ALLOWED TO HANDLE OR APPLY THIS
PRODUCT.

Do not use on household pets. Do not treat
animals under 3 months of age. Do not spray
overheated or sick animals. Do not spray ani-
mals within 30 days of slaughter. Do not use on
dairy animals. Do not apply in or around the
eyes. Do not spray directly into face. Some
strains of screw worms may develop resistance
to lindane. This will be observed by lack of re-
sponse to treatment. Do not use other than as
specified on the label. The use of this product
for treatment of other pests is prohibited.

ENVIRONMENTAL HAZARDS
This product is toxic to fish, birds and other
wildlife. Keep out of lakes, streams or ponds.
Do not contaminate water by cleaning of
equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS
Flammable! Contents under pressure. Do not
use near fire, sparks, or flame. Do not puncture
or incinerate container. Exposure to tempera-
tures above 120 degrees F may cause bursting.
Use only as directed. Intentional misuse by de-
liberately concentrating and inhaling the con-
tents can be harmful or fatal.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by
storage or disposal. Do not reuse empty con-
tainer. Securely wrap original container in
several layers of newspaper and discard in
trash.

CAUTION

STATEMENT OF PRACTICAL TREATMENT

If swallowed - Call a physician or Poison Control
Center immediately. Gastric lavage
is indicated if material was taken in-
ternally. **DO NOT INDUCE VOM-
ITING:** vomiting may cause aspira-
tion pneumonia.
If inhaled - Remove victim to fresh air. Apply
artificial respiration if indicated.
If on skin - Remove contaminated clothing and
wash affected areas with soap and
water.
If in eyes - Flush eyes with plenty of water.
Get medical attention if irritation
persists.

**SEE SIDE PANEL FOR ADDITIONAL
PRECAUTIONARY STATEMENTS**

For the control of Screw Worm infestations and
Ear Tick control in cattle, sheep, goats and
horses and Fleece Worms in sheep and goats.

DIRECTIONS FOR USE

It is a violation of Federal law to use this prod-
uct in a manner inconsistent with its labeling.

Shake well before using. Use this spray sparing-
ly. Surprisingly little will do the job. Hold
dispenser upright and point valve in desired di-
rection of spray. Spray is released by depressing
plunger valve. For best results, hold valve 6 to
12 inches from area being sprayed.

FOR SCREW WORM CONTROL spray directly
into and around infested wound until thorough-
ly wet. Repeat treatment at 5 to 7 day intervals
until healed.

FOR FLEECE WORMS and other secondary
blow flies, shear infested area, thoroughly spray
directly into as well as area surrounding infesta-
tion. Repeat when necessary.

FOR EAR TICK CONTROL grasp ear firmly
with one hand. Use other to release spray
downward into animal's ear. A 3 second appli-
cation is recommended for large animals, 2
second for smaller animals. Penetrates masses
of ear wax and rapidly kills Ear Tick larvae and
nymphs. Protects against re-infestation for weeks
or more.

TO PROTECT WOUNDS against screw worms,
fleece worms and other secondary blow flies,
spray all superficial wounds, shear cuts, etc. and
after Docking, Dehorning, or Castrating. Re-
peat application in 3 days, then as necessary un-
til wound is healed.

Mr. B.C. Burns
Carson Chemicals, Inc.
P.O. Box 466
New Castle, IN 47362

Dear Mr. Burns:

Subject: Lindane RPAR
Screw Worm Bomb
EPA Reg. No.: 2382-80
Appl. Date: November 9, 1983

The labeling referred to above, submitted in connection with amended registration, under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable and a stamped copy is enclosed for your records.

If you hold a Federal registration, a supplemental registration, or a Special Local Needs registration, you may continue to produce new stocks of such products, using current labeling, until May 1, 1984. After that date, all remaining inventories of affected products will fall under the Existing Stocks provisions stated in our letter of October 28, 1983.

Sincerely yours,

George T. LaRocca
