Sold Only By Veterinarians

EPA Reg. No. 2382-86
EPA Est. No. 2382-IN-1

7135-3-C

Lot No. on bottom of container.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Rotate nozzle counter clockwise approximately 1/8 turn and squeeze trigger to initiate spray. Adjust nozzle for desired spray pattern. (Close nozzle after use to avoid loss of product).

FOR DOGS AND CATS

Direct the spray over the animal until the entire coat is wet. On a heavily coated animal, ruffle the coat and spray against the lay of the hair. Allow hair coat to dry before removing dead fleas by brushing or combing. This product is formulated to leave the hair coat soft and manageable for grooming. For best results in controlling ticks, spray directly on the tick. Thoroughly spray interior of kennel or other sleeping quarters. Repeat treatment as necessary.

Do not spray structural surfaces where spotting, staining, or discoloration may be objectionable.

FOR KITTENS AND PUPPIES

Treat same as dogs and cats except for nursing kittens and puppies, wrap the animal in a towel which has been sprayed lightly. Leave the nose and mouth exposed for normal breathing. Keep the animal wrapped for 5 to 10 minutes. Fleas may then be removed from the coat by picking or combing. Repeat as necessary.

FOR ROLL-ON APPLICATOR

Specialty designed for use on cats and difficult areas in dogs. Remove cap and invert bottle for application. Apply by rolling the applicator ball along the hair coat giving special attention to areas behind the ears and at the base of the tail. Apply cautiously around eyes and nose being careful to avoid delicate mucous membranes. (Do not squeeze the bottle as this may result in applying more product than is necessary). Rub legs fur with finger tips until desired area of treatment is damp. Repeat treatment as necessary.

KILLS - Ticks, Fleas and Lice.

REPELS - Mosquitoes and Gnats.

GROOMS - Conditions coat with Lanolin.

DEODORIZES - Imparts a pleasing residual aroma.
