Dear Thomas A. Miller

Subject: ~~Supra-Quick Mite~~
EPA Reg. No. 2382-86
Application dated April 20, 1990

The proposed amendment to the registration of the product cited above under the Federal Insecticide Fungicide and Rodenticide Act removing the active-ingredient, ~~QAC-2-11~~ and updating the label is acceptable subject to the comments listed below. A stamped copy of the label is enclosed for your records.

- 1) Submit a 1 year storage stability study. The formulated product must be analyzed for its active ingredients at time zero and during a year of storage. The storage must be under warehouse conditions of temperature and humidity using containers similar to those that will be used in the trade. This data must be submitted within 15 months of the date of this letter.
- 2.) Provide information regarding the corrosion characteristics of this product. This information can be noted during the storage stability study.

Sincerely yours,

Phil Rutson
Product Manager (17)
Insecticide-Rodenticide Branch
Registration Division (87509C)

DIRECTIONS FOR USE

It is a violation of Federal Law to use
this product in a manner inconsistent with
labeling.

FOR ROLL-ON APPLICATOR

Specifically designed for use on cats and
out areas to treat on dogs. Remove
fur matting for application. Apply by
rolling the applicator ball along the hair
on special attention to areas behind
and at the base of the tail. Apply coat
around eyes and nose being careful to
avoid contact with mucous membranes. Do not
shake the bottle as this may result in apply-
ing product when it is necessary. Rub into
flea and tick infested area of treated
area. Repeat treatment as necessary.

KILLS - Ticks, Fleas and Lice.

**DECONTAMINATES - Consistent with Lethal
Dose (LD50) - Insects - Insects - Insects**
