**READ ENTIRE LABEL BEFORE EACH USE**  
**USE ONLY ON DOGS AND CATS**  
**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Spray over entire haircoat making sure the coat is thoroughly wetted to the skin. Spray against the lay of the hair, ruffling the coat on long-haired pets. Weight of pet, length of hair and density of coat will determine amount of spray to be applied to wet the skin (average dose approximately 7.5 g/kg for dogs and 5g/kg for cats). This 16 oz. bottle should be sufficient for three applications to an average 30-35 lb. dog or 20 applications to a 10 lb. cat. When applied at the label dose rate, the pet should not be retreated more frequently than once every 14 days. Lighter applications will reduce period of effectiveness, may result in earlier reinfestation and may require more frequent retreatment. For best results in controlling ticks, spray directly on the tick. Allow pet to air dry or blow dry. Do not towel dry. This product is formulated to leave the hair coat soft and manageable for grooming.

**PRECAUTIONARY STATEMENT**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

Sensitivities may occur after using any pesticide product on pets. If signs of sensitivity occur, bathe your pet with mild soap or a non-pesticidal shampoo and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.
