APPLICATION: Equi-Shield™ Fly Repellent Gel is a ready-to-use wipe-on product. Simply lift nozzle cap and apply squeezing pressure to bottle for easy flow of product onto palm of hand or desired area, then rub into coat. It is especially adaptable for treating difficult areas such as the face or head. Avoid the animal's eyes during application. Repeat application daily as required. This gel will not remove or discolor hair. Equi-Shield™ Fly Repellent Gel imparts a high gloss to the coat when brushed out and leaves no embarrassing "greasy" effect to collect dust and dirt prior to showing.
