NOTIFICATION

OCT 19 2010

Subject: Application for Pesticide Notification
EPA Registration Number: 2382-122
Date of Submission: September 23, 2010

Dear Registrant:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration (PRN) 98-10 dated September 23, 2010, for the abovementioned product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions regarding this letter, please contact Clayton Myers at (703) 347-8874, or via email at myers.clayton@epa.gov.

Sincerely,

for Richard Gebken
Product Manager
Insecticide Branch
Registration Division (7505P)

ATTENTION: Linda Arrington

Subject: Notification of removal of 1-800-CLEANUP number

Dear Ms. Arrington:

According to the Label Review Manual, Chapter 13: Storage and Disposal; "use of a toll-free number or website is optional"; therefore, 1-800-CLEANUP has been removed from our labels. We understand notification is not required for such a change, but we wanted to maintain a record.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Enclosed are the following revised products labels.

Ecto-Soothe® 3X Flea and Tick Shampoo for Dogs and Cats, EPA Reg. No. 2382-117
FlyPel, EPA Reg. No. 2382-132
Zema IGR Premise Spray, EPA Reg. No. 2382-183
Preventic L.A. IGR, EPA Reg. No. 2382-124
Otomite® Plus, EPA Reg. No. 2382-116
Permethrin-Pyriproxyfen Residual Shampoo for Dogs #1, EPA Reg. No. 2382-155
Pet-Guard Gel Forte, EPA Reg. No. 2382-92
Pyre-sect Dip, EPA Reg. No. 2382-89
Yard Spray Concentrate, EPA Reg. No. 2382-122

One additional change was made to the Pyre-sect Dip label. This label was submitted on May 7, 2009 in response to an MGK-326 RED reregistration deficiency letter. The word, 'Pesticide' was inadvertently left off and has been added before 'Storage' in the STORAGE AND DISPOSAL section to comply with the required verbiage in PR Notice 2007-4.

SIDE/BACK PANEL

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To kill fleas and ticks harboring in lawns, backyards, dog kennels and runs, apply Yard Spray Concentrate through the hose end sprayer provided with this product or by compressed air sprayer or watering can. For best results lawn should be mowed a day or two before spraying.

For use with Hose End Sprayer Applicator: The hose end applicator cap is calibrated to deliver the correct dilution rate, and when attached to this bottle will treat 6000 square feet. To treat smaller areas, stop spraying when the appropriate amount of concentrate has been used (e.g. half the concentrate should be used for a 3000 square foot yard), reclose bottle with original cap and store bottle for next application. Separate mixing of the concentrate or other application equipment is not required. First ensure the hose faucet is turned off. Then screw end of hose into black end of the sprayer cap. Remove bottle cap (save for closing after use). Secure sprayer cap to bottle by turning bottle counter-clockwise. Turn on faucet. Spray using a slow, even sweeping motion, being sure to cover the entire lawn surface where pets frequent. Spray under ornamentals and trees but avoid soaking young or flowering plants. Flea populations are greatest where the pet spends the most time. Therefore be sure to thoroughly soak these areas (e.g. shaded areas such as underbrushes, trees, porches, inside pet kennel and wherever your pet frequents). Repeat treatment may be necessary at 7 to 14 day intervals.

For Compressed Air Sprayer or Watering Can Applicator: Mix two (2) fluid ounces of concentrate per one (1) gallon of water and apply at the rate of one (1) gallon of diluted spray per 1000 square feet to surfaces of kennels, exercise runs, patios, on and under porches, crawl spaces and other outdoor areas pets frequent.

=====

STORAGE AND DISPOSAL

Storage: Store in a closed container in a cool dry place.

Disposal: If empty: Do not reuse container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
