DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To kill fleas and ticks harboring in lawns, backyards, dog kennels and runs, apply Yard Spray Concentrate through the hose end sprayer provided with this product or by compressed air sprayer or watering can. For best results lawn should be mowed a day or two before spraying.

For use with Hose End Sprayer Applicator: The hose end applicator cap is calibrated to deliver the correct dilution rate, and when attached to this bottle will treat 6000 square feet. To treat smaller areas, stop spraying when the appropriate amount of concentrate has been used (e.g. half the concentrate should be used for a 3000 square foot yard), reclose bottle with original cap and store bottle for next application. Separate mixing of the concentrate or other application equipment is not required. First ensure the hose faucet is turned off. Then screw end of hose into black end of the sprayer cap. Remove bottle cap (save for closing after use). Secure sprayer cap to bottle by turning bottle counter-clockwise. Turn on faucet. Spray using a slow, even sweeping motion, being sure to cover the entire lawn surface where pets frequent. Spray under ornamentals and trees but avoid soaking young or flowering plants. Flea populations are greatest where the pet spends the most time. Therefore be sure to thoroughly soak these areas (e.g. shaded areas such as underbrushes, trees, porches, inside pet kennel and wherever your pet frequents). Repeat treatment may be necessary at 7 to 14 day intervals.

For Compressed Air Sprayer or Watering Can Applicator: Mix two (2) fluid ounces of concentrate per one (1) gallon of water and apply at the rate of one (1) gallon of diluted spray per 1000 square feet to surfaces of kennels, exercise runs, patios, on and under porches, crawl spaces and other outdoor areas pets frequent.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Pesticide Storage: Store in a closed container in a cool dry place.

Pesticide Disposal and Container Handling: Nonrefillable container. Do not reuse or
refill this container. If empty: Place in trash or offer for recycling, if available.
If partly filled: Call your local solid waste agency for disposal instructions. Never
place unused product down any indoor or outdoor drain.
