**LONG ACTING
Flea & Tick
Spray for Dogs.
With NYLAR®

16 fl. oz. (473 mL)

Kills fleas for 2 months and ticks (including Lyme vectors) for 1 month. Pyriproxyfen IGR sterilizes fleas for up to 3 months.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. To prevent harm to you and your pet, read entire label before use. Spray over entire haircoat making sure the coat is thoroughly wetted to the skin. Spray against the lay of the hair, ruffling the coat on long-haired dogs. Weight of dog, length of hair and density of coat will determine amount of spray to be applied to wet the skin (average dose approximately 7.5 g/kg). This 16 oz. bottle should be sufficient for four applications at a two month interval to an average 30-35 lb. dog. Lighter applications will reduce period of effectiveness and require more frequent treatments. Allow dog to air dry or blow dry. Do not towel dry.
