Date of Issuance: MAY 21 1997

Term of Issuance: Conditional

Name of Pesticide Product: VirBac  
Supra-Quick Mist with  
IGR

NOTICE OF PESTICIDE:  
 Registration  
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

VIRBAC, Inc.  
3200 meacham Blvd.  
Fort Worth, Texas 76137

Notes: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Change the label by revising the EPA Registration Number to read, "EPA Reg. No. 2382-131".
3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labelling. Spray over entire haircoat making sure the coat is thoroughly wetted to the skin. Spray against the lay of the hair, ruffling the coat on long-haired pets. Weight of pet, length of hair and density of coat will determine amount of spray to be applied to wet the skin (average dose approximately 7.5 g/kg for dogs and 5g/kg for cats). This 16 oz. bottle should be sufficient for three applications to an average 30-35 lbs. dog or 20 applications to a 10 lb. cat. When applied at the label dose rate, the pet should not be retreated more frequently than once each 14 days. Lighter applications will reduce period of effectiveness, may result in earlier reinfection and may require more frequent retreatment. For best results in controlling ticks, spray directly on the tick. Allow pet to air dry or blow dry. Do not towel dry. This product is formulated to leave the hair coat soft and manageable for grooming.
