U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Registration Division (RTEOBC)  
401 "M" St., S.W.  
Washington, D.C. 20460

EPA Reg. Number:  
2382-164

Date of Issuance:  
APR 10 2001

NOTICE OF PESTICIDE:

Registration  
 Reregistration

(under FIFRA, as amended)

Term of Issuance:  
Conditional

Name of Pesticide Product:  
Pyrethrin-Pyriproxyfen  
Residual Ovisterilant  
Shampoo #1

Name and Address of Registrant (include ZIP Code):

Virbac Inc.  
P.O. Box 162059  
Fort worth, Texas 76161

More changes in label or differences in use than are indicated in connection with this registration must be submitted to and accepted by the registrant before use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c) (7) (C) since you have agreed to the conditions set forth in the Agency's letter dated May 25, 2000 and modified in a meeting on June 7, 2000. Your letter dated June 8, 2000 confirms in writing your acceptance of the conditions.

Change the registration number to read EPA Reg No. 2382-164

Submit two copies of the finished printed label before the product is released for shipment.

If the conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6 (e).

A stamped copy of the label is enclosed for your records.

**READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON DOGS AND CATS. PRECAUTIONARY STATEMENT HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION**

Do not treat nursing puppies or kittens. Do not use on puppies under 11 weeks of age and on kittens under 6 months of age. Consult a veterinarian before treating pregnant, nursing, sick, aged, debilitated or medicated dogs. Sensitivities may occur after using any pesticide product on pets. If signs of sensitivity occur, bathe pet with mild soap or a non-pesticidal shampoo and rinse with large quantities of water. If signs continue consult a veterinarian immediately. Wash hands with soap and water after using.

**STORAGE AND DISPOSAL DIRECTIONS**

**STORAGE:** Store in closed container in a cool dry area.

**DISPOSAL:** Do not reuse empty container. Wrap container and put in trash.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

The dual synergized pyrethrins provide immediate killing of fleas and ticks on the pet. Pyriproxyfen, in this special formulation±, is absorbed onto, and sticks tightly to hair and skin, even after complete rinsing. This insect growth regulator (a synthetic flea hormone) sterilizes all fleas that jump onto the pet (even new fleas before they start laying eggs) and therefore kills all flea eggs. This action persists for 1 month and breaks the flea's life cycle by preventing the development of new fleas in the pet's environment and the build-up of reinfestation pressure. Shake well before using. Wet the pet thoroughly with warm water. Apply product onto its back at the rate of approximately 1 tablespoonful for each 5lb. bodyweight (7.5g per kg) for dogs and puppies and at 1 ¼ tablespoonful (8.5g per kg) for cats and kittens. Massage well into the skin to obtain good lathering over the entire body. Allow lather to remain in contact for at least 10 minutes then rinse off. Allow pet to air dry or blow dry. To maintain effective flea life cycle control (through IGR flea egg killing) repeat treatment at least once every month. Under conditions of flea reinfestation pressure from the environment, repeat treatment when new parasites are seen on the pet, but not more frequently than once weekly on dogs and twice monthly on cats.

EPA Reg. No. 2382- EPA Est. No. 2382-IN-1

Lot No. on bottom of container .01/01

**ACCEPTED  
with COMMENTS  
In EPA Letter Dated:**

APR 10 2001

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No.
