NOTIFICATION Date JAN 12 2000	

Explanation: Use additional page(s) if necessary. (For section I and Section II)

Alternate Brand Name

This notification is consistent with the provisions of PR Notice 98-10 and EOA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.D. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Section III				
1. Material in Which This Product Will Be Packaged:				
Child-Resistant Packaging <input type="checkbox"/> Yes * <input checked="" type="checkbox"/> No	Unit Packaging <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	Water-Soluble Packaging <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	2. Type of Container <input checked="" type="checkbox"/> Metal <input checked="" type="checkbox"/> Plastic <input type="checkbox"/> Glass multilaminate pouch <input checked="" type="checkbox"/> Paper <input type="checkbox"/> Other (Specify) _____	
* Certification must be submitted. Unit package wgt 0.97oz/27.5gm		No. per container 1	If "YES," Package wgt No. per container	
Location of Net Contents Information <input checked="" type="checkbox"/> Label <input type="checkbox"/> Container		4. Size(s) of Retail Container 0.97oz/ 27.5gm		5. Location of Label Directions <input checked="" type="checkbox"/> On Label <input type="checkbox"/> On Labeling accompanying product
6. Manner in Which Label Is Affixed To Product <input checked="" type="checkbox"/> Lithographed <input type="checkbox"/> Paper glued <input type="checkbox"/> Stenciled				

Section IV			
1. Contact Point (Complete items directly below for identification of the individual to be contacted, if necessary, to process this application)			
Name Michelle Foster	Title Director, Regulatory Affairs	Telephone No. (include Area Code) 817-831-5030	
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate, and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.			6 Date Application Received (Stamped) 
2. Signature 		3. Title Registration Specialist	
4. Typed Name Michelle Foster		5. Date December 8, 2000	

Preventic PLUS+

TICK AND FLEA IGR COLLAR FOR DOGS

READ ENTIRE LABEL DIRECTIONS BEFORE EACH USE. USE ONLY ON DOGS. DO NOT USE ON CATS.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION:

HAZARDS TO HUMANS: Not intended for use on humans. Do not allow children to handle or play with this collar. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Some humans may develop skin irritation through contact with collared pet. Remove collar, shampoo pet and consult physician if irritation persists. Wash thoroughly with soap and water after handling.

HAZARDS TO PETS: Do not use on puppies less than 12 weeks old. Consult a veterinarian before using on debilitated, aged, medicated, pregnant or nursing animals. Do not treat collared dogs with other monoamine oxidase inhibitors, tricyclic antidepressants, selective serotonin reuptake inhibitors or proser agents. Remove at first sign of irritation or adverse reaction, bathe dog with a non-pesticidal shampoo and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. There is a risk of collar breakage and ingestion if collar is worn by unattended dogs that play by mouthing each other in the neck area. If collar is missing from a dog, search for, retrieve and recover the entire collar. Immediately consult a veterinarian if dog is depressed.

Note to Veterinarian: If a dog ingests a Preventic Plus collar and exhibits intoxication (primary sign is severe depression), induce vomiting, administer non-oily laxative, activated charcoal and enema. Provide supportive therapy until collar fragments are voided. If dog cannot be roused, Yohimbine, 0.1mg/kg by intravenous injection is antidotal. Repeat as needed. Temporary and reversible hypoglycemia was observed when the product was tested at 5 times the recommended dose.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this collar in a manner inconsistent with its labeling. The two active ingredients in this collar have different and complementary functions. The IGR (synthetic flea hormone), pyriproxyfen (Nylar®), sterilizes all fleas that jump on the pet (even new fleas before they start laying eggs) and kills all flea eggs. Pyriproxyfen is continuously released from the collar, spreads over the pet in the natural oils of the haircoat and adheres tightly to hair and skin to provide more than 3 months of continuous flea sterilization efficacy. This breaks the flea's life cycle by preventing the development of new fleas in the environment that would normally infest the pet. The ovicidal activity of pyriproxyfen starts immediately, reaches 100% effectiveness within 3-4 days and continues at 100% effectiveness as long as the collar is worn. The second active, amitraz, also spreads over the pet in the oil of its skin and haircoat where its activity starts within 24 hours to detach and kill existing ticks on the pet. Amitraz continues to prevent attachment and feeding and kills new ticks that may climb onto the pet for up to 90 days. The collar and its active ingredients are not affected by normal wetting such as rainfall, however it is suggested the collar be removed before bathing. This collar should be replaced when new ticks are seen to persist on the pet. For optimal efficacy for tick control and flea prevention you should replace the collar every 3 months.

DIRECTIONS FOR USE: Place the collar around the dog's neck, adjust for proper fit and buckle in place. Cut off and dispose of excess length. Do not allow dogs to play with cut-off excess. The collar must be worn tightly enough to contact skin and so the dog cannot remove it.

DISPOSAL AND DISPOSAL STORAGE

Store in a cool, dry place. **DISPOSAL:** Do not reuse empty pouch or box. Wrap pouch and put in trash collection. When discarding cut off end and used collar, wrap in newspaper and place in trash collection.
