JAN 12 2000

NOTICE OF PESTICIDE:

Registration  
 Reregistration

(under FIFRA, as amended)

Term of Issuance:  
Unconditional

Name of Pesticide Product:  
Pyriproxyfen 10% Spot  
On For Cats

Name and Address of Registrant (include ZIP Code):

VIRBAC, INC.  
P.O. Box 162059  
Fort Worth, TX 76161

~~Any changes in labeling differing in substance from that accepted in connection with this registration must be submitted and approved by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.~~

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5).

Make the following changes to the labeling before releasing the product for shipping:

- a. Revise the EPA Registration Number to read, "EPA Reg. No.2382-173".
- b. Change the Precautionary Statements to read: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using toilet.
- c. The statement, "Do not use on kittens less than one month, must be changed to "Do not use on kittens less than three months.

Signature of Approving Official:

*See page 2*

Date:

*January 12, 2000*

d. The Statement Of Practical Treatment must read as follows:

"IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice."

"IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice."

Copies of the acute toxicity and companion animal safety reviews are enclosed for your records.

Submit two (2) copies of the revised final printed label before you release the product for shipment.

If the final printed labeling is not received prior to shipment of this product, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these requirements.

A stamped copy of the label is enclosed for your records.

Sincerely,

Marion J. Johnson, Jr.  
Product Manager 10  
Insecticide Branch  
Registration Division (7505C)

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under EPA Reg. No. 2382-733

Back of card

**READ ENTIRE LABEL BEFORE EACH USE. USE ONLY ON CATS.  
PRECAUTIONARY STATEMENT HAZARDS TO HUMANS AND DOMESTIC  
ANIMALS CAUTION**

**HAZARDS TO HUMANS:** Avoid contact with eyes, skin and clothing. Remove contaminated clothing and wash before reuse. Wash exposed skin with soap and water after using.

**STATEMENT OF PRACTICAL TREATMENT**

If in Eyes: Flush with plenty of water. Call a physician if irritation persists. If on skin. Wash with plenty of soap and water. Consult a physician if irritation persists.

**HAZARDS TO ANIMALS:** Do not treat kittens less than one month. Consult a veterinarian before treating pregnant, nursing, sick, aged, debilitated or medicated cats. Sensitivities may occur after using any pesticide product on pets. If signs of sensitivity occur, bathe pet with mild soap or a non-pesticidal shampoo and rinse with large quantities of water. If signs continue consult a veterinarian immediately.

**DIRECTION FOR USE:** It is a violation of Federal Law to use this product in a manner inconsistent with its labelling. Pyriproxyfen (Nylar®) IGR sterilizes all fleas and (kills) their eggs for up to 3 months. This action breaks the flea life cycle and prevents the development of new fleas in the pet's environment that might reinfest the pet. Remove the cap of the pipette. Part the hair between the shoulder blades. Squeeze the pipette firmly to empty the entire contents directly on the skin at the base of the neck. Care should be taken in keeping the pipette in contact with the skin. Avoid contact with treated area until dry. Reapply every three months. Efficacy is not reduced by bathing, water immersion, or exposure to sun light.

**STORAGE AND DISPOSAL**

**STORAGE:** Store in a cool dry area.

**DISPOSAL:** Wrap empty container in several layers of newspaper and discard in trash.
