

WARNING — COMBUSTIBLE MIXTURE

Do not store or use near heat or open flame, or while smoking.

STAY-SPRAY LIQUID PESTICIDE

**PROTECTS AGAINST NEW INVASIONS
OF ROACHES - CARPET BEETLES - ANTS AND CERTAIN OTHER INSECTS
FOR PROFESSIONAL USE ONLY**

DIRECTIONS

STAY-SPRAY LIQUID PESTICIDE easily kills common household insects; Carpet Beetles or Buffalo Moths, Roaches, Waterbugs, Ants, Crickets, Centipedes, Wasps, Silverfish, Spiders, Mosquitoes, Houseflies . . . and it is not even necessary to spray it on insects to get excellent results . . . because Stay-Spray Liquid Pesticide will continue to give protection AFTER the spray has evaporated.

Spray each surface so that, after drying, an effective protection will remain to kill insects that crawl over it. Allow two weeks for best results and if any insects still survive, re-treat the area where they are seen.

Spray only the area where insects appear. Treat localized areas of floors, under carpets, on shelves of closets, and in cracks, crevices, or hiding places where carpet beetles or buffalo moths may be found. May be applied to woodwork, on cracks and surfaces, around water pipes, storage areas, behind shelves, and wherever roaches, waterbugs, silverfish, crickets, centipedes and spiders run, hide or nest. For ants, treat window frames and door sills and ant-trails. As an aid in the control of mosquitoes, wasps and flies, thoroughly and repeatedly spray outside surfaces of screens, doors, windows and selected areas where they alight or congregate such as porch ceilings and lights. Treatment for these insects should be limited to outdoor use only with this formulation. Repeat when necessary.

| ACTIVE INGREDIENTS | 99.708% |
| Petroleum Distillate 97.397%; *O,O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothiolate 1.000%; Aromatic Petroleum Derivative Solvent 0.811%; **2,2 dichlorovinyl dimethyl phosphate 0.465%; and **related compounds 0.035%. | |
| INERT INGREDIENTS | 0.292% |

TOTAL 100.000%

*Equivalent to Diazinon, a registered tradename of the Geigy Agricultural Chemicals.
**Equivalent to 0.5% technical DDVP.

CAUTION!

KEEP OUT OF REACH OF CHILDREN

HARMFUL IF SWALLOWED, INHALED OR ABSORBED THROUGH SKIN

Avoid breathing of spray mist. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling and before eating or smoking. If swallowed, induce vomiting immediately and get medical attention. Atropine is antidotal.

Do not use in edible products areas of food processing plants, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Do not spray animals or plants. When spraying, wet surface thoroughly, but not so wet as to run or form puddles. Stay-Spray Liquid Pesticide may be applied to most surfaces and fabrics. If in doubt as to any material, test a small area before proceeding. Avoid asphalt tile, plastics or synthetic materials. Allow treated surfaces to dry before touching, using or storing.

This product is toxic to fish, birds, and other wildlife. Keep out of any body of water. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

Do not reuse empty container. Destroy empty container by perforating and burying in a safe place.
