WARNING

KEEP OUT OF REACH OF CHILDREN AND PETS

2393-183

MAY-18-1970

TESTED

May be fatal if swallowed. Avoid contact with skin. Wash thoroughly after use. Avoid breathing vapor or dust. Destroy containers when empty.

This product is toxic to fish and wildlife. Keep out of water and streams.

Do not apply to any area not specified on the label. Birds feeding in treated areas may be harmed.

GENERAL INFORMATION

Snails and slugs generally feed during the night. They attack many varieties of plants and are particularly damaging to seedlings. They inhabit damp or moist places such as underneath accumulations of debris and use of low growing plants and in greenhouses. Their presence can often be detected by the trail of shiny slime which they leave.

DIRECTIONS FOR USE

Hopkins Snail and Slug Pellets are suitable for use on all types of plants and vegetables including beans, beets, carrots, celery, cucumbers, endive, lettuce, peas, radishes, spinach, etc. They are also effective on strawberry beds. The product should be scattered directly on the surface of the plants and vegetables at the rate of 4 to 6 pellets per square foot. In all instances exercise care so that pellets do not contact or adhere to the plants or vegetables. Do not apply to strawberry beds within 6 days of harvest.

Thoroughly wet area not treated with pellets. For best results, use a liquid or granular bait and expand into an effective pest attracting mound of bait. Begin applications when pests first appear and repeat applications at weekly intervals as necessary for control.

The removal of bricks, boards, logs, etc. from the garden and other places where snails and slugs seek shelter, is helpful in their control.

Keep children, pets and livestock away from treated areas. Do not feed any animal material from treated areas, since injurious effects may result.

NOTE: Make special effort to keep pellets dry.

NOTICE OF WARRANTY

Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
