

ACCEPTED
 NOV 20 2003

ACTIVE INGREDIENT:

Metaldehyde (2,4,6-trimethyl-1,3,5-triazine-5-oxide) 1.1%
 3,5,7-trimethoxy-2,4,6-trimethyl-1,3,5-triazine 2.75%
INERT INGREDIENTS: 97.25%
TOTAL: 100.00%

EPA REG. NO. 2383-183
 EPA EST. NO. 61282-W-1

**KEEP OUT OF REACH OF
 CHILDREN AND PETS
 CAUTION**

FIRST AID	
Have label with you when obtaining treatment advice.	
If Swallowed	- Call a poison control center, doctor, or 1-800-301-7878 immediately for treatment advice. - Have person sip a glass of water if able to swallow. - Do not induce vomiting unless told to do so by the poison control center or doctor.
If on Skin	Wash with plenty of soap and water.
If in Eyes	- Hold eye open and rinse slowly and gently with water for 20 minutes. - Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.
	Call a poison control center, doctor, or 1-800-301-7878 immediately for treatment advice.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid contact with skin, eyes or clothing. Wash thoroughly after using. Avoid breathing vapor or dust. This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated areas, while bait is in evidence.

PERSONAL PROTECTIVE EQUIPMENT

Applicators and other handlers must wear long-sleeved shirt and long pants, waterproof gloves and shoes plus socks. Follow manufacturer's instructions for cleaning and maintaining Personal Protective Equipment (PPE). If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry. When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.240(d)(4)-(6)), the handler PPE requirements may be reduced or modified as specified in WPS.

USER SAFETY RECOMMENDATIONS

Users should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

ENVIRONMENTAL HAZARDS

For terrestrial uses, do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment wash waters.

**SNAIL & SLUG PELLETS
 CONTAINING 2.75% METALDEHYDE
 For the Control of Snails and Slugs**

This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated areas. Do not apply to any area not specified on the label.

GENERAL INFORMATION

Snails and slugs generally feed during the night. They attack many varieties of plants and are particularly damaging to seedlings. They inhabit damp or moist places such as underneath accumulations of decaying refuse or low-growing plants and in greenhouses. Their presence can often be detected by the trail of shiny slime which they leave.

DIRECTION FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow workers into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for entry into treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralls, waterproof gloves and shoes plus socks.

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for Agricultural Pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses. Do not enter treated areas without protective clothing until dusts have settled. Protective clothing means a long-sleeved shirt, long pants, shoes, socks, and chemical-resistant gloves.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in cool, dry place in original container. Protect from excessive heat. Once opened, do not store bag for prolonged period. In case of puncture, use cellophane bag and securely close. Do not reuse container.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **CONTAINER DISPOSAL:** Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

This product should be scattered directly on the surface of the soil. In all instances exercise care so that pellets do not contact or adhere to foliage of treated plants. In particular avoid contamination of edible portion of vegetables. Thoroughly wet area before or after pellets are spread. Pellets will absorb moisture and expand into an effective pest-attracting source of bait. Begin applications when pests first appear and before they cause damage. Repeat treatment at 2 week intervals or as necessary to control. This product is suitable to use for soil and slug control around the following crops:

VEGETABLES AND HERBS: artichoke, asparagus, beans, beet, blackberry, pea, brood, broad beans, cabbage, cantaloupe, carrot, cauliflower, celery, collards, corn, cucumber, eggplant, endive, garlic, green, horseradish, kale, kohlrabi, leek, lettuce, radish, mustard greens, chard, onion, parsnip, pea, pepper, pumpkin, radish, rutabaga, spinach, tomato, turnip, watermelon. Apply 1 lb. per 1,000 sq. ft. (25 to 45 lbs. per acre).

FERTILISERS: apple, apricot, avocado, cherry, citrus, grapes, pear, peach, plum. Apply at the rate of 1 lb. per 1,000 sq. ft. (25 to 45 lbs. per acre). [Note for citrus (oranges, lemons, grapefruit) may be applied by airplane or ground equipment to give even distribution. Make application when foliage and fruit are completely dry but soil is wet following an irrigation. Late afternoon or early evening applications are preferred. Do not apply within 14 days of harvest.]

BERRIES: blackberry, boysenberry, caneberry, logberry, raspberry, strawberry. Apply at the rate of 1 lb. per 1,000 sq. ft. (15 to 35 lbs. per acre). Do not apply to strawberry beds within 6 days of harvesting.

FLOWERS and other ORNAMENTALS: This product should be scattered directly on the surface of the soil at the rate of 2 to 8 lbs. per 1,000 sq. ft.

GREENHOUSES and LATH HOUSES: distribute pellets on and beneath benches, but do not place in pots or flats unless plants are well established. Keep pellets from coming in contact with plants. If soil is dry, irrigate prior to or sprinkle lightly after distributing pellets. Apply at the rate of 1 lb. per 400 to 500 sq. ft.

SEED GRASSES: alfalfa, hay, wheat, oats, barley. Apply up to 55 lbs. per acre.

The removal of bricks, boards, large rocks, trash piles or other material which might aid in sheltering snails and slugs is helpful in their control.

Keep children, pets and poultry away from treated areas while bait is in evidence. Do not use for any purpose not recommended on the label, since injurious effects may result.

NOTE: Make special effort to keep dogs off treated areas.

NOTICE OF WARRANTY

Seller makes no warranty, express or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
