

DIRECTIONS

NON-CROP AREAS: For Control of Most Annual and Perennial Grasses and Broadleaved Weeds on Non-crop land such as Rights-of-Way, Industrial Plants, Lumber Yards, Tank Farms, Storage Areas, and Parking Lots. Also For Use in Areas Where Asphalt is to be laid such as Parking Lots, Highways, Roadways, Industrial Plants, Rights-of-Way, Lumber Yards, Tank Farms, Storage Areas, Road Shoulders and Under Guard Rails. The Effectiveness and length of time that control will last will depend on type of soil, amount of rain and other conditions.

RATE: Under ordinary conditions use at the rate of 2 to 4 gallons per 1,000 square feet (1-3/5 to 3-1/5 pints per 100 square feet). Under conditions where the weeds are difficult to control, use at the rate of 6 gallons per 1,000 square feet (4-4/5 pints per 100 square feet).

HOW TO APPLY: Use a sprayer which will distribute the required amount evenly over the area to be treated. Use a coarse spray to reduce drift. Application may be made when top growth is dense, but better control will be obtained when weeds are short or when excess growth is mowed and removed before applying.

WHEN TO APPLY: Best results will be obtained if applied shortly before or at the time plant growth begins. Rain or thorough watering after application will cause the material to move to the root zone and thus speed up control.

NOTE: Do Not apply, allow to drift or drain or flush equipment onto or near croplands, lawns, trees or other desirable plants or to areas where their roots may extend. Do Not contaminate irrigation ditches or water used for domestic purposes. Do Not allow contact with fertilizers, insecticides, fungicides or seeds. Application equipment should be thoroughly cleaned with a detergent and water to prevent corrosion. Equipment which has been used to apply this product should not be used for applying insecticides, fungicides, fertilizers or other agricultural chemicals as plant injury may result.

UROX® LIQUID WEED KILLER

Contains 1/4 pound of Urox® per Gallon.

For General Weed Control on
Non-Crop Lands and Paved Areas

U.S. Patents No. 2,782,112 and 2,801,911

ACTIVE INGREDIENTS:

Monuron trichloroacetate [3-(p-Chlorophenyl)-1,1-dimethylurea trichloroacetate]	3.19%
Aromatic petroleum derivative	91.67%
INERT INGREDIENTS:	5.14%
TOTAL	100.00%

* Registered Trademark of Hopkins Agricultural Chemical Co.
EPA Reg. No. 2393-301 EPA Est. No. 2393-WI-1

CAUTION

KEEP OUT OF REACH OF CHILDREN

For Additional Caution Information
