

SELECTION OF TREATMENT AREAS: After removing as much alternative food as possible, determine dry acid-free areas where rats and mice will most likely find and consume the bait. Generally, these areas are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rats and mice or their signs have been observed.

APPLICATION DIRECTIONS FOR - WAY RAT AND ROOF RAT: Apply 1 to 2 teaspoon amounts of this product per placement. For outdoor use, place bait in active rat burrows or tamperproof bait boxes. Maintain an uninterrupted supply of fresh bait until all signs of feeding have stopped. Do not treat the same area with this product at less than 30 day intervals.

APPLICATION DIRECTIONS FOR HOUSE MOUSE: Apply 1 teaspoon amount of this product per placement at 8 to 12 foot intervals. For outdoor use, protect bait from rain or snow. Maintain an uninterrupted supply of fresh bait until all signs of feeding have stopped. Do not treat the same area with this product at less than 30 day intervals. Collect and dispose of all dead animals and excess bait properly.

NOTICE OF WARRANTY

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal use conditions. It is impossible to eliminate all risks inherently associated with this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of seller. In no case shall the seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer. Seller makes no warranties of merchantability or fitness for a particular purpose nor any other express or implied warranty except as stated above.
