WARNING
KEEP OUT OF THE REACH OF CHILDREN.

(THERAPEUTIC DOSES OF ATROPINE APPEAR TO BE EFFECTIVE AS AN ANTIDOTE)

NOTE TO PHYSICIAN

WARNING SYMPTOMS: Symptoms include weakness, headache, tightness in chest, blurred vision, non-reactive pinpoint pupils, salivation, sweating, nausea, vomiting, diarrhea and abdominal cramps.

TREATMENT: Atropine is the specific therapeutic antagonist of choice against parasympathetic neural stimulation. If there are signs of parasympathetic stimulation, atropine sulfate should be injected at 10-minute intervals, in doses of 1 to 2 milligrams, until complete atropinization has occurred. Atropine is contraindicated. Clear chest by postural drainage. Oxygen administration may be necessary. Observe patient continuously for 48 hours. Repeated exposure to cholinesterase inhibitor may, without warning cause prolonged susceptibility to very small doses of any cholinesterase inhibitor. Allow no further exposure until time for cholinesterase regeneration has been allowed as determined by blood test.

DIRECTIONS FOR USE

Read entire label—use in strict accordance with label directions and cautions.

COTTON—For early season thrips, flea beetles and cotton flea hoppers. Also for cotton leafworm and striped blister beetle. Apply 7 to 11 pounds of MASTER BRAND Dust per acre on appearance of insects. For mid and late-season boll weevil, bollworm, fall army worm, cotton leaf worm, aphids, red spider mites, leaf rollers, leafhoppers, and tarnished plant bug. Also for light-to-moderate infestations of lygus bugs in Western irrigated cotton. Apply 11 to 28 pounds of MASTER BRAND Dust per acre, depending on the size of the cotton and insect population level. Applications for boll weevil should be made every five to seven days as long as control is necessary.

MASTER BRAND Dust may be applied after bolls open. Allow 7 days between last application and grazing treated fields or harvesting crop residue for use as feed or bedding, for dairy or meat animals. For protection of honeybees, avoid unnecessary use during periods when hives are visiting the crop. When necessary to use during such periods, warn beekeepers well in advance to locate hives at a safe distance until one week after application. Do not apply within five days of hand-picking. Workers entering fields within 24 hours after application should wear protective clothing.

SOYBEANS: For the control of blister beetles, Mexican bean beetle, thrips, leaf hoppers, three-centered alfalfa hopper, cucumbe beetles, bean leaf beetles, Japanese beetle, alfalfa caterpillar, velvetbean caterpillar, and green cutworm, armyworms, webworms, corn ear worm, and stink bugs. Grasshoppers, apply 10-20 pounds per acre. Repeat applications as needed. This product should not be applied to soybeans within 20 days of harvest.

TOBACCO (PLANT INJURIES): For tobacco flea beetle, apply 1 to 3 lbs. per 100 square yards, when plants appear weak as needed at 10 to 14 day intervals and just before transplanting. In fields, broadcast applications for hornworm.
WARNING SYMPTOMS: Symptoms include weakness, headache, blindness, point pupils, salivation, sweating, nausea, vomiting, diarrhea, and death.

TREATMENT: Atropine is the specific therapeutic agent for emergency treatment. If there are signs of parasympathetic stimulation, atropine may be administered in doses of 1 to 2 milligrams; until complete atropinization occurs, by postural drainage. Oxygen administration may be necessary. Exposure to cholinesterase inhibition may result in unconsciousness or respiratory failure. Cholinesterase inhibitors allow in further exposure.

NOTE TO PHYSICIAN:

Do not contaminate food or animals with products of this product. FROM:

COTTON: For early season thrips and flea beetles and cotton boll weevil. Apply one per 100 pounds of MASTER BRAND Dust. In fields or harvesting crop residue for use as seed or bedding, five days before transplanting. Do not handle during periods when bees are present. This product is not effective against cotton boll weevil. For mid or late season boll weevil, apply one per 250 pounds of MASTER BRAND Dust. Repeated applications may be necessary. This product is not effective against cotton boll weevil. For mid or late season boll weevil, apply one per 100 pounds of MASTER BRAND Dust. Repeated applications may be necessary. This product is not effective against cotton boll weevil.

SOYBEANS: For control of blister beetles, Mexican bean beetle, Japanese beetle, armyworm, webworms, corn earworm and stink bugs, apply 120 pounds per acre. Repeat applications as needed. This product should not be applied to soybeans within 5 days of harvest.

TOBACCO (PLANT BEDS): For tobacco flea beetle, apply one per 150 pounds per 100 square yards. When plants are large, apply 10 to 14 pounds per acre. Apply 10 to 15 pounds per 100 square yards each of transplanting. In fields. Repeated applications may be necessary. This product is not effective against tobacco flea beetle. For mid or late season boll weevil, apply one per 100 pounds of MASTER BRAND Dust. Repeated applications may be necessary. This product is not effective against tobacco flea beetle. For mid or late season boll weevil, apply one per 100 pounds of MASTER BRAND Dust. Repeated applications may be necessary. This product is not effective against tobacco flea beetle. For mid or late season boll weevil, apply one per 100 pounds of MASTER BRAND Dust. Repeated applications may be necessary. This product is not effective against tobacco flea beetle. For mid or late season boll weevil, apply one per 100 pounds of MASTER BRAND Dust. Repeated applications may be necessary. This product is not effective against tobacco flea beetle.

This product is toxic to wildlife. Birds and other wildlife in treated areas may be harmed. Do not apply when weather conditions favor drift from treated areas. Poisonous if swallowed, inhaled, or absorbed through skin. Do not handle or store in areas where children may be present. DANGER: Do not swallow or get in eyes. In case of contact, wash with soap and water. In case of irritation, flush with large amounts of water. Do not eat or drink anything by mouth. Do not eat or drink anything by mouth. Do not eat or drink anything by mouth.
