THIS PACKAGE CONTAINS

ACTIVE INGREDIENTS:	
Malathion*	25.00%
INERT INGREDIENTS:	
	75.00%
TOTAL	100.00%

*O,O-Dimethyl dithiophosphate of diethyl mercaptosuccinate.

For use only in formulating products bearing EPA approved FIFRA registrations. This product is for the use in the formulation of insecticides only. The formulators using this product are responsible for providing data to support their registration.

FOR FORMULATION OF INSECTICIDE ONLY

This product contains no wetting agents. It is designed for use in the compounding of dust mixtures, as recommended by State and Federal investigators. It is compatible with the common dust diluents but should not be used with lime. This product is formulated from technical (95%) Malathion. The diluents used are CCC and Diluex A. Seller makes no warranty of any kind express or implied concerning the use of this product. Buyer assumes all risk of use or handling whether in accordance with directions or not.

"Empty bags should be buried or burned. (Stay away from smoke). If the bags are burned, the ashes should be buried in a safe place."

CAUTION

KEEP OUT OF THE REACH OF CHILDREN

Do not contaminate feed, food containers and water troughs. Avoid breathing of dust. Avoid contact with skin; wash thoroughly after using. Harmful if swallowed. Highly toxic to fish. Do not contaminate any body of water through spillage, cleaning of equipment or disposal of wastes and containers.

WASH AFTER HANDLING

Do not use this product in any manner not stated on this label. This product should not be stored in temperatures above 25 degrees C. or 77 degrees F.

NOTE TO PHYSICIAN

Malathion use may cause cholinesterase inhibition. Atropine is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

NOTICE

Stevens Industries, Inc. warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions.
