DUST CONCENTRATE

FOR MANUFACTURING USE ONLY

ACTIVE INGREDIENTS:

Gamma Isomer of Benzene Hexachloride 90%
Other Isomers of Benzene Hexachloride 45%

INERT INGREDIENTS 46%

TOTAL 100%

WARNING

Master Brand Dust Concentrate is a Benzene Hexachloride formulation containing 90% of the gamma isomer, suitable carriers and conditioning agents, and designed for use in preparing agricultural dusts for the control of ~~various insects~~ insects, giant ~~ants~~ ants and certain ~~other~~ other pests. It may be blended with the common inert diluents including talc, pyrophyllite and others, and with other compatible insecticides, especially DDT and sulfur, for the control of cotton insect pests. It should not be used with lime or other alkaline diluents, as they may reduce the efficiency of the insecticide. Consult your local experimental station for specific recommendations for the use of dusts prepared from this product. ~~Do not use~~
Do not use if not to be planted in all crops.
Seller makes no warranty of any kind, express or implied, concerning the use of this product. Buyer assumes all risk of use or handling, whether in accordance with directions or not.

WARNING

(12/13/47)
Harmful vapor and dust. May cause irritation of skin and eyes. May be absorbed through the skin. Avoid inhaling dust, vapor or spray mist. Avoid contact with skin and eyes. Avoid contamination of foodstuffs. In case of skin contact, wash with plenty of mild soap and water. For eyes, flush with water for 15 minutes; get medical attention.
