Instructions

Apply to lawn in early spring before seeds germinate as this product is effective on the weeds and grasses listed above as they sprout from seed.

Apply the contents of this bag evenly over 2,500 sq. ft. It is important that there are no skips or misses; use correct setting for your spreader as shown below.

Leaves of Dichondra should be dry before applying. Water in thoroughly after application, washing all material off leaves into the soil.

Do not apply on Blade grass lawns or edible vegetables.

- CAUTIONS:** Do not take internally.
 Avoid contact with skin and eyes.
 Do not breathe in dust.
 Do not contaminate feed or foodstuffs.
 Do not contaminate streams, lakes, or ponds.
 Do not store near seed, fertilizer or other pesticides.
 Keep out of the reach of children and pets.
